## ABOUT THIS REPORT

Food Idea Holdings Limited (the “Company”), together with its subsidiaries (the “Group”), is pleased to present this Environmental, Social and Governance Report (the “Report”) to provide an overview of the Group’s management of significant issues affecting the operation, including environmental, social and governance issues. This Report is prepared by the Group with the professional assistance of APAC Compliance Consultancy and Internal Control Services Limited.

### Preparation Basis and Scope

This Report is prepared in accordance with Appendix 20 to the Rules Governing the Listing of Securities on GEM of The Stock Exchange of Hong Kong Limited (the “Stock Exchange”) (the “GEM Listing Rules”) – “Environmental, Social and Governance Reporting Guide” and has complied with “comply or explain” provision in the GEM Listing Rules.

This Report summarises the performance of the Group in respect of corporate social responsibility, covering its operating activities which are considered as material by the Group. With the aim to optimise and improve the disclosure requirements in the Report, the Group has taken initiative to formulate policies, record relevant data as well as implement and monitor measures. This Report shall be published both in Chinese and English on the websites of the Stock Exchange and the Company. Should there be any discrepancy between the Chinese and the English versions, the English version shall prevail.

### Reporting Period

This Report demonstrates our sustainability initiatives during the reporting period from 1 January 2017 to 31 December 2017.

### Contact Information

The Group welcomes your feedback on this Report for our sustainability initiatives. Please contact us by email to [info@foodidea.com.hk](mailto:info@foodidea.com.hk).

## INTRODUCTION

The Group is principally engaged in (i) catering services; (ii) production, sales and distribution of food products to supermarket chains in Hong Kong; (iii) investment in securities; and (iv) money lending business.

The Group’s food products operation represents production, sales and distribution of food products, including barbecued food and Taiwanese Lou Mei to major supermarket chains in Hong Kong. The Group operates a food processing factory in Tsuen Wan and over 70 concessionaire stores in Hong Kong. For money lending business, the Group targets customers who look for substantial loan amounts.

The Group recognises the significance of sustainable practices in order to achieve business excellence and enhance capabilities for long-term competitiveness. The Group is committed to maintaining its operations in a responsible and value-optimising manner for stakeholders and community by incorporating environmental, social and governance considerations into its operations. To demonstrate its commitment, the Group has established and implemented various policies to manage and monitor the risks related to the environment, employment, operating practices and community. Details of the management approaches to sustainable development of different areas are illustrated in this Report.

## STAKEHOLDERS ENGAGEMENT

The Group understands that stakeholder engagement is one of the key drivers in the continuous improvement of its performance. As such, the Group has established a diverse array of effective communication channels to a broad spectrum of stakeholders to enable better formulation of its business strategies in order to respond to their concerns and expectations, strengthen our relationships and anticipate potential risks.

Stakeholders	Expectations	Engagement channels
<b>Government</b>	<ul style="list-style-type: none"> <li>– Compliance with the laws and regulations</li> <li>– Proper tax payment</li> <li>– To promote regional economic development and employment</li> </ul>	<ul style="list-style-type: none"> <li>– On-site inspections and checks</li> <li>– Annual reports, interim reports and quarterly reports (collectively as the “Financial Reports”)</li> <li>– Website</li> </ul>
<b>Shareholders and investors</b>	<ul style="list-style-type: none"> <li>– Low risk</li> <li>– Return on the investment</li> <li>– Information disclosure and transparency</li> <li>– Protection of interests and fair treatment of shareholders</li> </ul>	<ul style="list-style-type: none"> <li>– Annual general meeting and other shareholder meetings</li> <li>– Financial Reports, announcements and circulars</li> <li>– Meeting with investors and analysts</li> </ul>
<b>Employees</b>	<ul style="list-style-type: none"> <li>– Safeguard the rights and interests of employees</li> <li>– Health and safety</li> <li>– Working environment</li> <li>– Career development opportunities</li> <li>– Self-actualisation</li> </ul>	<ul style="list-style-type: none"> <li>– Conference</li> <li>– Training, seminars and briefing sessions</li> <li>– Emails</li> </ul>

## **ENVIRONMENTAL ASPECTS**

The Group is committed to minimising its environmental impacts by responsibly managing its business, reducing its carbon footprint and using resources effectively. Hence, the Group has implemented an “Environmental Facilities Operation and Management Policy” which covers the management of different emissions. The Group has also established relevant emissions reduction and energy saving initiatives to manage the emission and maintain green operations.

The Group is in strict compliance with relevant laws and regulations in Hong Kong, including the Air Pollution Control Ordinance and the Water Pollution Control Ordinance. During the reporting period, the Group was not aware of any non-compliance with relevant laws and regulations that had significant impact on the Group related to air and greenhouse gas emissions, discharges into water and land, generation of hazardous and non-hazardous waste.

### **Emissions**

#### ***Air Pollutants Emission***

The Group acknowledges its responsibility to reduce emissions in order to minimise its impacts on the environment. Under the Air Pollution Control Ordinance, the oil fumes and cooking odour emissions from cooking process are regarded as air pollutants. The Group has installed oil fumes control equipment to control the air pollutants emission. Regular maintenance is also carried out to ensure the oil fumes control equipment is in good condition and function efficiently.

In addition to oil fumes and cooking odour, the fuel used for food production process and by vehicles also contribute to the Group’s air pollutants emission. The Group has adopted liquified petroleum gas (“LPG”) and town gas as the major energy sources during food production process which generate less air pollutants comparing to other fossil fuels.

During the reporting period, the air pollutants emission was as follows:

Type of air pollutants	Unit	2017	2016
Nitrogen oxides (NOx)	kg	15.20	11.27
Sulphur dioxide (SO <sub>2</sub> )	kg	0.26	0.22
Particulate matter (PM)	kg	0.95	0.71

The amount of air pollutants emission in 2017 was higher than that in 2016 as the fuel consumption increased due to increase of food products sales in 2017.

### **Greenhouse Gas (“GHG”) Emission**

Greenhouse gas is considered as one of the major contributors to the climate change and global warming. Energy consumption accounts for a major part of our GHG emission. The Group endeavours to improve energy efficiency and reduce energy consumption by adopting energy saving initiatives mentioned in the section “Use of Resources” of this Report.

During the reporting period, the GHG emission was as follows:

Type of GHG emission	Unit	2017	2016
Scope 1 (Note 1)	tonnes of CO <sub>2</sub> e	80.53	65.81
Scope 2 (Note 2)	tonnes of CO <sub>2</sub> e	176.78	171.63
Scope 3 (Note 3)	tonnes of CO <sub>2</sub> e	8.82	9.47
<b>Total GHG emission</b>	<b>tonnes of CO<sub>2</sub>e</b>	<b>266.13</b>	<b>246.91</b>
GHG emission intensity	tonnes of CO <sub>2</sub> e/ employee (Note 4)	1.28	1.50

Notes:

- 1 Scope 1: Direct emission from sources that are owned or controlled by the Group.
- 2 Scope 2: Indirect emissions from the generation of purchased electricity and purchased town gas consumed by the Group.
- 3 Scope 3: Other indirect emission from electricity used for processing fresh water and sewage by government departments and business air travel by employees.
- 4 The intensity refers to tonnes of carbon dioxide equivalent (CO<sub>2</sub>e) per the total number of employees at the end of the reporting period.

The GHG emission intensity decreased by 15% in 2017 as compared with 2016, reflecting the Group’s continued progress on carrying out energy-saving initiatives in reducing GHG emission.

### **Hazardous and Non-hazardous Wastes**

The Group does not generate hazardous waste during its operations. For non-hazardous waste, the Group has engaged qualified recycling companies to collect and handle the waste in accordance to the Waste Disposal Ordinance. Furthermore, the Group has applied 4R Principle (i.e. Reduce, Reuse, Replace and Recycle) to implement waste reduction measures to reduce the amount of non-hazardous waste. For example, the Group encourages double-side printing and reuse of paper to reduce the paper waste.

As it is the first year required to disclose data of waste generation, the Group did not record the non-hazardous waste generated during the reporting period. However, in order to better formulate measures to reduce the amount of non-hazardous waste generated, the Group will take initiative to record relevant data in the coming year.

### **Use of Resources**

The Group places a great emphasis on environmental protection to ensure efficient use of energy and resources. With the implementation of the Group's "Energy and Resources Policy", the Group strives to reduce the resources consumption by implementing energy and water efficiency initiatives and encouraging its employees, customers, business partners and the community to adopt environmentally responsible behaviour.

### **Energy Consumption**

The energy consumption of the Group mainly comes from purchased electricity and fuel consumption. In view of the scarcity of energy, the Group has advocated various energy conservation strategies. The Group has adopted energy-saving lighting systems and production equipment to reduce the energy usage during operations. In order to avoid unnecessary energy consumption, air-conditioners and other equipment are opened according to the seasonal adjustment and lightings are switched off when the room is not in used.

During the reporting period, the energy consumption was as follows:

<b>Type of energy</b>	<b>Unit</b>	<b>2017</b>	<b>2016</b>
Purchased electricity	MWh	<b>335.30</b>	306.66
Purchased town gas	MWh	<b>0.01</b>	3.54
LPG	MWh	<b>158.54</b>	112.04
Petrol	MWh	<b>149.00</b>	129.20
<b>Total energy consumption</b>	<b>MWh</b>	<b>642.85</b>	551.44
Energy intensity	MWh/employee (Note)	<b>3.09</b>	3.34

Note: The intensity refers to MWh per the total number of employees at the end of the reporting period.

The amount of LPG consumption increased in 2017 as the fuel consumption increased due to increase of food products sales in 2017.

The energy intensity decreased by 7% in 2017 as compared with 2016 as the result of implementation of various energy conservation measures.

### ***Water Consumption***

Water is another important resource used by the Group in daily operations. The Group consumes water in different activities, including washing of food materials, cooking and cleaning of kitchen utensils. The Group endeavours to conserve water effectively by identifying water saving initiatives. The Group has adopted water-saving production methods and equipment to reduce the water consumption. The used water is re-used under feasible circumstances. Furthermore, the Group has conducted regular maintenance of water pipes to prevent leakage of water and repair any defective components.

During the reporting period, the water consumption was as follows:

<b>Water consumption</b>	<b>Unit</b>	<b>2017</b>	<b>2016</b>
Total water consumption	m <sup>3</sup>	<b>8,284.33</b>	7,207.49
Water intensity	m <sup>3</sup> /employee (Note)	<b>39.83</b>	43.68

Note: The intensity refers to m<sup>3</sup> per the total number of employees at the end of the reporting period.

The water intensity decreased by 9% in 2017 as compared with 2016, indicating the Group's effort in conserving water with aforementioned water-saving strategies implemented.

### ***Packaging Materials***

The Group uses plastic wraps and containers for food products packaging. The amount of packaging materials used is relatively small and considered as insignificant to the Group's operation.

### **The Environment and Natural Resources**

With the integration of policies and measures to reduce emissions and resources consumption, the Group strives to reduce the impacts on the environment and natural resources. The Group also provides trainings for employees to increase their awareness of environmental protection at work and in life.

In addition, the Group has formulated a "Pollution Accident Management" session under "Environmental Facilities Operation and Management Policy" to handle with possible incident that cause pollution to the environment. When there is any accident of pollution, the Group will formulate an emergency plan immediately and report the case to the relevant government departments in order to reduce the environmental impacts to the minimal.

## **SOCIAL ASPECTS**

### **Employment and Labour Practices**

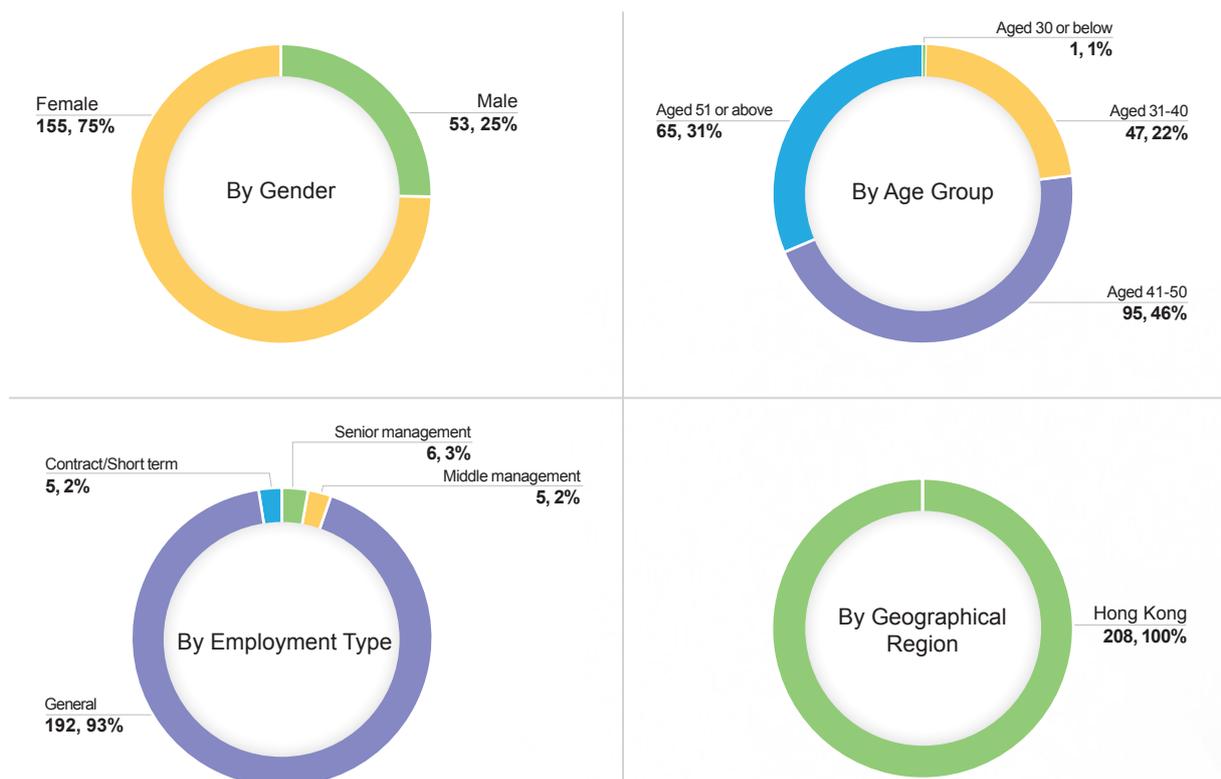

#### ***Employment***

The Group believes people are valuable assets and their diligent efforts and continuous supports are crucial to the Group's development and success. As such, the Group aims to attract and retain talents, provide a safe and equal working environment for its employees and promote employee health and well-being. The Group is in strict compliance with relevant laws and regulations in Hong Kong, including the Employment Ordinance, the Sex Discrimination Ordinance, the Disability Discrimination Ordinance, the Family Status Discrimination Ordinance and the Race Ordinance.

The Group's "Human Resources Management Policy" covers the Group's standard in respect of compensation and dismissal, recruitment and promotion, working hours, rest periods and other benefits and welfare. In addition, the Group is dedicated to providing equal opportunity in all aspects of employment and maintaining a workplace that is free from discrimination or harassment against any individual on the basis of seniority, nationality, gender, age, marital status, disability, race, color, religion or sexual preference.

During the reporting period, the Group was not aware of any non-compliance with the relevant laws and regulations that had significant impact on the Group relating to compensation and dismissal, recruitment and promotion, working hours, rest periods, equal opportunity, diversity, anti-discrimination and other benefits and welfare.

As at 31 December 2017, the employee compositions (in numbers of employees) by gender, employment type, age group and geographical region were as follows:

The employee turnover rate by gender and age group during the reporting period was as follows:

#### Employee turnover rate

Employment	Unit	2017	2016
<b>By gender (Note 1)</b>			
– Male	%	34	26
– Female	%	23	19
<b>By age group (Note 2)</b>			
– 30 or below	%	100	–
– 31-40	%	53	24
– 41-50	%	21	20
– 51 or above	%	11	20
<b>Overall (Note 3)</b>	%	25	21

Notes:

- 1 Turnover rate refers to the number of employee turnover of the gender group during the reporting period per the total number of employees of the corresponding gender group at the end of the reporting period.
- 2 Turnover rate refers to the number of employee turnover of the age group during the reporting period per the total number of employees of the corresponding age group at the end of the reporting period.
- 3 Turnover rate refers to the total number of employee turnover during the reporting period per the total number of employees at the end of the reporting period.

## Health and Safety

The Group places the highest priority on securing the health and safety of our employees. The Group complies with the Occupational Safety and Health Ordinance to maintain a healthy and safe workplace for our employees and protect them from work-related injuries. As stipulated in the Group's "Health, Safety and Environment Policy Statement", the Group strives to reduce and control the health, safety and environment related risks. The Group continues to monitor the effectiveness of safety-related controls and conduct assessments on its health and safety performance. In order to create a corporate culture of health and safety, the Group conveys to our employees the importance of occupational health and safety to enhance their awareness.

During the reporting period, there was no case of work-related fatality, and there were 12 cases of work-related injuries, accounting for a total of 415 lost days. The Group was not aware of any non-compliance with relevant laws and regulations that had significant impact on the Group in providing a safe and healthy working environment during the reporting period.

## Development and Training

The Group considers the skills and knowledge of our employees as the key elements of sustainable development of the Group. Hence, the Group provides training opportunities for our employees to enhance their working capabilities and management competence according to the Group's "Human Resources Management Policy". The on-the-job trainings offered are based on the business needs, needs of respective positions and interests of employees. Employees are also provided with the opportunities to participate in trainings offered by professional training institution or experts.

During the reporting period, the percentage of employees trained by gender and employment type was as follows:

Percentage of employee trained				
Employment	Unit	2017	2016	
<b>By gender</b> (Note 1)				
– Male	%	19	21	
– Female	%	35	17	
<b>By employment type</b> (Note 2)				
– Senior management	%	50	60	
– Middle management	%	40	40	
– General	%	31	15	

Notes:

<sup>1</sup> Percentage of employee trained refers to the total number of employees trained of the gender group during the reporting period per the total number of employees of the corresponding gender group at the end of the reporting period.

<sup>2</sup> Percentage of employee trained refers to the total number of employees trained of the employment type during the reporting period per the total number of employees of the corresponding employment type at the end of the reporting period.

During the reporting period, the average training hours completed per the number of employees at the end of the reporting period was as follows:

<b>Average training hours</b>				
<b>Employment</b>	<b>Unit</b>		<b>2017</b>	2016
<b>By gender</b>				
– Male	hours/employee		<b>0.57</b>	1.99
– Female	hours/employee		<b>1.06</b>	0.50
<b>By employment type</b>				
– Senior management	hours/employee		<b>1.50</b>	1.50
– Middle management	hours/employee		<b>1.20</b>	1.00
– General	hours/employee		<b>0.94</b>	0.77

***Labour Standards***

The Group is committed to upholding the elimination of all forms of forced labour and supporting the effective abolition of child labour. The Group strictly prohibits the use of child labour in accordance with the Employment of Children Regulations. As prevention of engaging child labour, job applicants are required to present identity proofs during recruitment process according to the Group’s “Human Resources Management Policy”.

In addition, the Group respects the freedom of employees and has established a “Prohibition of Forced Labour Policy”, covering regulations to prohibit and prevent forced labour. Employees have the rights to report any case of infringement of their rights to the management.

During the reporting period, the Group was not aware of any non-compliance with relevant laws and regulations related to recruitment of child labour or forced labour practices.

**Operating Practices**

***Supply Chain Management***

The Group aims not to be directly or indirectly involved in corrupt practices or complicit in human rights abuses. Hence, the Group requires its supply chain partners to uphold the Group’s principles of ethical business conduct. Besides, the Group gives preference to collaborate with suppliers who work towards responsible and sustainable operation. Through managing and engaging with our supply chain, the Group strives to create positive impacts on the environment and society.

The Group believes that our procurement can ultimately affect our product and service quality. As such, the Group has adopted a “Suppliers Social Responsibilities Control Procedure” to manage and mitigate the environmental and social risks in the supply chain. The Group selects suppliers carefully and continues to monitor their performance. Relevant department is assigned to conduct evaluation of social responsibility performance of potential and existing suppliers by carrying out on-site inspection. In case of non-compliance discovered, the cooperation will be terminated to uphold the Group’s standards. During the reporting period, the Group worked with 30 suppliers (2016: 20 suppliers), in which 28 suppliers were from Hong Kong, 1 supplier was from the People’s Republic of China and 1 supplier was from Taiwan.

### ***Product Responsibility***

The Group places a great emphasis on the quality and safety of our food products and complies with relevant laws and regulations in Hong Kong, including the Food Safety Ordinance and the Public Health and Municipal Services Ordinance. The Group has established a “Food Quality and Safety Management Policy” with stringent procedures to ensure the quality of our products. The Group selects suppliers carefully and maintains relationship only with qualified suppliers. The Group also ensures the food ingredients supplied by the suppliers have obtained international food safety certification and have passed relevant inspections conducted by the Hong Kong government.

In addition to food ingredients procurement, the Group continues to improve the production process in order to further enhance the quality and safety of our food products. The Group identifies the food safety objectives and conducts reviews to ensure consistent compliance. The Group also performs regular identification of hazards, determination of critical control points and timely implementation of effective control and monitoring measures.

The Group believes the opinions from customers can drive its continuous improvement. With the implementation of “Customer Opinion Management Policy”, the Group strives to strengthen the communication with customers and satisfy customers’ requirements. In the receipt of complaints, the Group will take prompt actions and carry out remedial actions. If the product sold is subjected to recall for health or safety reasons, the Group will handle according to the government requirements. Whenever the products are required to be discarded, it will be wrapped properly and disinfected before disposal. The Group also keeps record of the weights and photos of the discarded products.

During the reporting period, there was no product subject to recalls for safety or health reasons. The Group was not aware of any non-compliance with relevant laws and regulations regarding product responsibility.

## ***Anti-Corruption***

The Group is committed to upholding the highest standards of business ethics in its business and operations. The Group is in strict compliance with the Prevention of Bribery Ordinance and has zero tolerance on any forms of bribery, corruption and fraud. With the implementation of “Anti-corruption and Anti-Fraud Management System”, the Group conveys to its employees the Group’s requirements towards anti-corruption.

The Group has established communication channels, including phone and email, for employees to report on observed and suspected case of non-compliance and questionable practices. After receipt of the case, the Group will perform anti-corruption investigation. Once a misconduct case is confirmed, it will be reported to relevant legal authorities and relevant personnel will be subject to disciplinary actions.

During the reporting period, the Group was not aware of any non-compliance with the relevant laws and regulations that had significant impact on the Group relating to bribery, extortion, fraud and money laundering.

## **Community**

### ***Community Investment***

The Group is constantly aware of the needs of community and take up our corporate responsibility to contribute to the society. The Group has formulated a “Community Investment Policy” and aims to focus on the living standards of community, culture projects, education and development and labour cooperation. The Group also strives to develop long-term relationships with our stakeholders and bring a positive impact on community development.

## ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORTING INDEX

Subject areas, aspects, general disclosures and Key Performance Indicators (“KPIs”)		Section	Pages
<b>A. Environmental</b>			
<b>A1: Emissions</b>			
<b>General Disclosure</b>		“Emissions”	4-6
<b>KPI A1.1</b>	The types of emissions and respective emissions data	“Emissions – Air Pollutants Emission”	4-5
