2025
ANNUAL REPORT

CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

This report, for which the directors (“Directors”) of Palinda Group Holdings Limited (the “Company”) collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of the Stock Exchange (the “GEM Listing Rules”) for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that to the best of their knowledge and belief, the information contained in this report is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement herein or this report misleading.

CHAIRLADY'S STATEMENT

TO OUR SHAREHOLDERS

On behalf of the Board of Directors (the "Board"), the annual results of the Company and its subsidiaries (collectively referred to as the "Group") for the year ended 31 December 2025 (the "Year" or the "Year 2025") are presented to shareholders.

During the Year 2025, the Group's revenue amounted to approximately HK\$100.0 million which was approximately 78.4% lower than that of the last corresponding year ended 31 December 2024 (Last Year or Year 2024). The sharp decline was mainly due to a significant reduction in revenue for the wine business from approximately HK\$461.7 million for the Year 2024 to approximately HK\$99.4 million for the Year 2025. The revenue of food products operation business increased from the Year 2024 (HK\$0.2 million) to the Year 2025 (HK\$0.5 million).

WINE BUSINESS

The Group's core wine business continued to operate under a very challenging market environment in Hong Kong. Weak macro-economic conditions, conservative consumer sentiment and intensified competition in Hong Kong wine market exerted pressure on both sales volume and pricing of our premium wine portfolios. During the Year 2025, the wine trading business recorded a significant decrease in revenue to approximately HK\$99.4 million (2024: approximately HK\$461.7 million) with a segment loss of approximately HK\$90.7 million (2024: segment profit of approximately HK\$9.8 million).

Although the Group's gross margin turned from a gross profit margin of approximately 2.1% in the Year 2024 to negative gross margin of approximately 91.2% in the Year 2025. In response, the Group continued to focus on cost discipline and operational efficiency in order to mitigate the impact of the downturn in the wine market.

FOOD PRODUCTS OPERATION

The food products operation business was operated by the subsidiaries of the Company to sales and distribution of drinking water products which commenced in 2024.

For the Year 2025, the food products operation recorded HK\$0.5 million in revenue when compared with approximately HK\$0.2 million for the Year 2024. The gross profit margin increased from HK\$75,000 to approximately HK\$133,000 in the Year of 2025.

CHAIRLADY'S STATEMENT

PROSPECTS

Looking ahead to 2026, the Board expects the operating environment for both the wine business and food products operation to remain challenging amid ongoing uncertainties in the domestic and global economies. Consumers are likely to remain cautious in their discretionary spending, while competition in the Hong Kong wine market is expected to stay intense. Against this backdrop, the Group will continue to adopt a prudent and disciplined operating strategy, with particular emphasis on cash flow management, cost control and risk management.

At the same time, the Group will continue to enhance its brand recognition and market presence by participating in selected exhibitions, wine fairs and promotional activities, with the aim of deepening engagement with existing customers and expanding its customer base. The Board will also proactively explore suitable investment and business opportunities that can complement the Group's existing operations, broaden its income streams and create long term value for shareholders.

APPRECIATION

I would like to thank our shareholders for their support to the Group. I would also like to thank my fellow Directors, senior managements and all staff members for their positive contributions during the Year.

We will continue to work together to improve its performance and to strive for sustainable development in the interests of all stakeholders.

Huang Wei
Chairlady

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

The Group's principal activities during the Year 2025 were (i) sales and distribution of wine products, ancillary wines-related products; and (ii) sales and distribution of food products in Hong Kong.

Wine Business

The Group's wine is mainly from various reputable vineyards and wineries in Western Australia, with a focus on premium red wines as the major product. During the Year, the wine business segment recorded approximately HK\$99.4 million in revenue with a segment loss of approximately HK\$90.7 million compare with approximately HK\$461.7 million in revenue and with a segment profit of approximately HK\$9.8 million respectively for the Last Year.

The Group's gross margin turning from a gross profit margin of approximately 2.1% in the Year 2024 to negative gross margin of approximately 91.2% in the Year 2025. In response, the Group continued to focus on cost discipline and operational efficiency in order to mitigate the impact of the downturn in the wine market.

Food products operation

The revenue of food products operation recorded an increase from HK\$0.2 million for the Year 2024 to HK\$0.5 million for the Year 2025. The sales and distribution of drinking water products operates in the second half of the Year 2024.

FINANCIAL REVIEW

Revenue

During the year ended 31 December 2025, the Group derived the revenue principally from the wine business and food products operation business in Hong Kong. The Group generally recognised revenue from the sales of wines and food products upon delivery of the wines and food products to the customers with their acceptance of the Group's products.

Revenue amounted to approximately HK\$100.0 million which was approximately 78.4% lower than that of the last corresponding year ended 31 December 2024. Such decline was mainly due to the drop of wine trading revenue in Year 2025, reflecting the weak market sentiment and more conservative spending by customers on premium wine products.

Cost of sales and inventories consumed

Cost of sales and inventories consumed mainly comprised cost of wines and drinking water. The cost of sales and inventories consumed decreased by approximately HK\$348.7 million, or approximately 78.6% from approximately HK\$443.8 million for the Year 2024 to approximately HK\$95.1 million for the Year 2025. The decline of the cost of sales and inventories consumed was following decrease of the revenue in the wine business as the wine business was adversely affected by unfavourable market conditions and pressure on selling prices during the Year 2025.

MANAGEMENT DISCUSSION AND ANALYSIS

Other income

Other income comprised mainly bank interest income, sundry income and government grants. Other income decreased by approximately HK\$0.3 million from approximately HK\$0.4 million for the Year 2024 to approximately HK\$0.1 million for the Year 2025. The decrease of other income was mainly due to the decrease of sundry income in the Year 2025 (2024: approximately HK\$0.4 million).

Employee benefits expenses

Employee benefits expenses increased by approximately HK\$0.2 million, or approximately by 4.0% from approximately HK\$3.9 million for the Year 2024 to approximately HK\$4.0 million for the Year 2025. The increase of employee benefits expenses was mainly attributable to higher staff salaries during the Year 2025.

Other gains and losses, net

Other gains and losses, net comprised mainly on net exchange gain, results from disposal of subsidiaries and impairment losses on trade receivables. Other gains, net decreased by approximately HK\$8.8 million from approximately gains of HK\$8.7 million for the Year 2024 to approximately losses of HK\$31,000 for the Year 2025. The significant change mainly due to a significant gain on disposal of subsidiaries in Year 2024.

Impairment loss of inventories

The Group's impairment loss of inventories recorded a rise from approximately HK\$4.9 million to approximately HK\$84.6 million.

Administrative expenses

The Group's administrative expenses mainly included advertising and promotion expenses, entertainment, depreciation of property, plant and equipment and of right-of-use assets, legal and professional fees and other administrative expenses. The Group recorded a decline in administrative expenses by approximately HK\$6.3 million, or approximately 65.9% from approximately HK\$9,566,000 for the Year 2024 to approximately HK\$3,256,000 for the Year 2025.

Finance costs

The Group's finance costs mainly included interests on borrowings, and interest on lease liabilities. Finance costs have been increased by approximately HK\$3.4 million, or approximately 44.1% from approximately HK\$7.7 million for the Year 2024 to approximately HK\$11.1 million for the Year 2025. The rise of finance costs mainly results from the interest on borrowings including bank and non-financial institutions of approximately HK\$11.1 million during the year ended Year 2025.

Loss for the year

As a result of the cumulative factors discussed above, the loss for the Year 2025 was approximately HK\$98.0 million as compared to profit for the Year 2024 of approximately HK\$1.3 million. Such decrease was mainly due to a sharp increase of impairment loss of inventories.

MANAGEMENT DISCUSSION AND ANALYSIS

DIVIDENDS

No dividend was paid or proposed by the Company during the year ended 31 December 2025 (2024: HK\$Nil).

DIRECTORS' REPORT

PRINCIPAL RISKS AND UNCERTAINTIES

The Directors are aware that the Group is exposed to a variety of risks, some are specific to the businesses in which the Group operates while others are common risks that most businesses face. Procedures have been established by the Directors to ensure significant risks that may adversely affect the Group's operation and performance are identified and corresponding measures are in place to mitigate those risks. Save as disclosed in Note 28 to the consolidated financial statements and elsewhere in this annual report, the following are the most significant risks identified as at 31 December 2025. If any of these events occur, the Group's businesses, financial conditions, results of operations and/or prospects of the Group could be materially and adversely affected. These key risks are by no means exhaustive or comprehensive, and there may be other risks, in addition to those highlighted below, which are not known by the Group or which may not appear significant now but could turn out to be so in the future. Key risks related to the Group's businesses and to the industries in which the Group operates include:

Market Risk

Adverse financial impacts include earnings volatility, cost volatility including changes in income and corporate taxes, transportation and fuel prices, interest rates and other operating expenses; exchange rate volatility in the currencies we use; and the Australia-China political and trade tensions affecting market sentiment and status of Hong Kong, such as the excessive import duties imposed on Australian wines into China increasing cost of trades.

Employee Engagement Risk

We are only as good as our people and so our ability to achieve our vision depends on the effectiveness of our staff both ashore and at sea. Loss of key staff or an inability to attract, train or retain staff could affect our ability to grow our business and achieve our long-term goals.

Customer Satisfaction and Reputation Risk

Poor service may lead to impaired brand value and reputation as a trusted counterparty, which could restrict our access to customers, cargoes, transportation handling, funding and talent.

IT Security Risk

Our business processes rely heavily on IT systems (including cloud-based) and daily communications and accounting systems. Failure of a key IT system, targeted attacks on our system, or a breach of security could result in communications breakdown and business disruption.

DIRECTORS' REPORT

Operational Efficiency Risk

Poor internal systems, processes, communications and management could adversely impact our business and undermine our operational efficiency.

Liquidity Risk

Insufficient financial resources (such as borrowing facilities) may negatively impact the Group's ability to meet its payment obligations as they fall due.

Wine product cost may increase due to global warming and climate change

Grape is the major ingredient in wine, which is highly affected by weather. Water deficits and droughts, hail, flooding, the frequency of extreme weather events all influence the way a grape is grown and its final quality. It turns out implies a fluctuation in product costing of the Group.

Weather is an uncontrollable factor that the Group is not able to manage if bad weather occurs. There is no assurance that the Group will be able to maintain adequate supply from other countries with promising quality. The Group may be required to increase the procurement cost, which may adversely affect the Group's profitability.

Keen competition in Hong Kong wine industry

Due to zero import custom policy in 2008 and the benefits promoted by the Government of the HKSAR, it reduces the cost to enter the wine business market resulting in lower barrier to become wine traders in Hong Kong.

Sustainable effort has to be made, in order to gate keeping the costing and quality of the Group's sourced wine, or it may be adversely affected in the event that the Group is not competitive in terms of the pricing, or there is a drop in the quality of the products.

Consumer willingness to buy tends to be conservative due to economy uncertainty

Wine generally being classified as a luxury product which being segmented into medium to high-end market. It may be highly affected by economy uncertainties. The Group may have to reduce the price levels or offer better business terms to customers, which may adversely affect the Group's performance.

Most of the Group's food production revenue from food products operation was derived from the concessionaire stores in supermarket chains in Hong Kong.

Over 99% of the revenue from wine business as derived from the sales channel in Hong Kong. As at 31 December 2025, we do not operate any fixed place for retailing of wine business in Hong Kong.

DIRECTORS' REPORT

Environmental policies and performance

The Group commits to the long term sustainability of the environment and communities in which it operates. Acting in an environmentally responsible manner, the Group endeavours to comply with laws and regulations regarding environmental protection and adopt effective measures to achieve efficient use of resources, energy saving and waste reduction.

The Group also commits to the principle and practice of recycling and reducing. To help conserve the environment, it implements green office practices such as re-deployment of office furniture as far as possible, encourages use of recycled paper for printing and copying, double-sided printing and copying and reduces energy consumption by switching off idle lightings, air conditioning and electrical appliances.

Any deficiency in compliance with emissions and other environmental legislation and standards may result in financial loss and significant damage to our brand and the long-term sustainability of our wine business.

Compliance with the relevant laws and regulations

As far as the Board is aware, the Group has complied in material respects with the relevant laws and regulations that have a significant impact on the business and operation of the Group. During the Year, there was no material breach of or non-compliance with the applicable laws and regulations by the Group.

Relationship with suppliers, customers and other stakeholders

The Group understands the importance of maintaining a good relationship with its suppliers, customers and other stakeholders to meet its immediate and long-term goals. There was no material and significant dispute between the Group and its suppliers, customers and/or other stakeholders during the Year.

PERMITTED INDEMNITY

Pursuant to the memorandum and articles of association ("Articles of Association") of the Company, the applicable laws and regulations, every Director shall be indemnified and secured harmless out of the assets and profits of the Company against all actions, costs, charges, losses, damages and expenses which they or any of them may incur or sustain in the execution of their duties in their offices. Such permitted indemnity provision has been in force throughout the year. The Company has arranged appropriate directors' and officers' liability insurance coverage for the Directors and officers of the Group.

ANNUAL GENERAL MEETING

A circular containing the details of 2026 AGM and the notice of 2026 AGM and form of proxy accompanying thereto will soon be despatched to shareholders.

DIRECTORS' REPORT

RESERVES

Such systems are designed to manage, rather than eliminate, the risk of failure to achieve business objectives, and can only provide reasonable, but not absolute assurance against misstatement or loss.

Given the relatively simple corporate and operation structure, the Group currently does not have an internal audit function.

The Board has overall responsibility for evaluating and determining the nature and extent of the risks it is willing to take in achieving the Group's strategic objectives, and establishing and maintaining appropriate and effective risk management and internal control systems.

The Audit Committee assists the Board in leading the management as well as overseeing the formation, implementation and monitoring of the risk management and internal control systems.

In addition, the Group engages independent professional advisor to conduct an annual review of the effectiveness of the Group's risk management and internal control system in various material aspects including financial, operational and compliance controls. The risk management report and internal control report are submitted and reviewed by the Audit Committee at least once a year. Summary of findings and recommendations are discussed at the Audit Committee meeting with a view to improve the Group's operations.

For the Year, the Board, through its Audit Committee, is satisfied that the Group's risk management and internal control systems (i) are adequate to meet the needs of the Group in its current business environment; and (ii) comply with the code provisions on internal control as set out in the GEM Listing Rules.

DIRECTORS' RESPONSIBILITY FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The Directors acknowledge their responsibility for preparing the financial statements of the Group. The statement by the Auditors of the Company about their reporting responsibilities is set out on page 36 of this report.

CORPORATE GOVERNANCE REPORT

As described under the section headed “Material uncertainty related to going concern” of the “Independent Auditor’s Report”, the Group recorded net cash outflows from operating activities of approximately HK\$5,292,000 for the year ended 31 December 2025, and as of that date, the Group’s cash at bank and on hand amounted to HK\$272,000 and the Group’s borrowings and interest payables amounted to approximately HK\$116,894,000 and HK\$13,490,000 respectively, of which the Group’s bank borrowing and the corresponding interest payables amounted to HK\$90,000,000 and HK\$11,986,000 respectively were overdue, although the overdue bank borrowing was secured by a floating charge on the Group’s inventories of HK\$300,000,000 and a limited corporate guarantee by the Company. These conditions indicate the existence of a material uncertainty which may cast significant doubt about the Group’s ability to continue as a going concern. In light of all the plans and measures, as detailed in the section headed “Going concern” of note 3 to the consolidated financial statements, to mitigate the liquidity pressure and to improve the Group’s cash flows, the directors of the Company are of the opinion that the Group will be able to finance its future working capital and financial requirements.

Based on the information provided by management of the Group and the steps taken to improve the financial position of the Group, including but not limited to the mentioned above, the Audit Committee has reviewed and agreed with the Board’s basis for the going concern basis adopted in preparing the financial statements.

The statement of external auditor of the Company, CCTH CPA Limited, about its reporting responsibilities on the consolidated financial statements of the Group is set out in the Independent Auditor’s Report.

INVESTOR RELATIONS AND COMMUNICATION

The Board recognises the importance of good communications with all shareholders. The Company encourages two-way communications with both its institutional and private investors. A shareholder’s communication policy was adopted by the Board at the Board meeting held on 23 March 2012 aiming at providing the shareholders and potential investors with ready and timely access to balanced and understandable information of the Company. Extensive information about the Company’s activities is provided in its interim report, quarterly reports and this annual report, which are sent to shareholders of the Company. The AGM provides a valuable forum for direct communication between the Board and the Company’s shareholders. The Chairman of the Board as well as Chairmen of the Board Committees together with the auditor will present to answer shareholders’ questions. The circular of the AGM is distributed to all shareholders at least 21 clear days before the meeting. Separate resolutions are proposed at general meetings on each separate issue and voting of which are taken by poll pursuant to the GEM Listing Rules. Any results of the poll are published on both the GEM website and the Company’s website. All corporate communication with shareholders will be posted on the Company’s website for shareholders’ information.

The 2025 AGM was held on 28 May 2025. Save as the attendance of the Board disclosed under the paragraph headed “Number of Meetings and Attendance Records” above, the auditor also attended the 2025 AGM to answer questions of the shareholders.

The Company keeps on promoting investor relations and enhancing communication with the existing shareholders and potential investors. It welcomes suggestions from investors, stakeholders and the public. Enquiries to the Board or the Company may be sent by post to the Company’s head office or by email to enquiry@palinda.com.

CORPORATE GOVERNANCE REPORT

DIVIDEND POLICY

Subject to the approval of the shareholders and requirement of the relevant law, the Company shall pay annual dividends to the shareholders if the Group is profitable, operations environment is stable and there is no significant investment or commitment made by the Group. The aggregate amount of dividend per year shall not exceed 20% of the consolidated annual net profits (excluding extraordinary items, if any) attributable to the shareholders of the Company, taking into consideration the criteria described below. The remaining net profits will be used for Group's development and operations. The dividend policy allows the Company to declare special dividends from time to time in addition to the annual dividends.

The Company's ability to pay dividends will depend upon, among other things, the Group's current and future operations, financial position, development pipeline, prevailing economic environment, contractual restrictions, capital and other reserve requirements, dividends received from the Company's subsidiaries and associates/joint ventures, as well as any other conditions or factors which the Board deems relevant and having regard to the directors' fiduciary duties.

COMPANY SECRETARY

The Company Secretary is responsible for facilitating the Board meeting process, as well as communications among Board members, with shareholders and management. For the year ended 31 December 2025, the Company's company secretary has complied with Rule 3.29 of the Listing Rules by taking no less than 15 hours of relevant professional training.

SHAREHOLDERS' RIGHT

Procedures for Shareholders to Convene an Extraordinary General Meeting

Pursuant to the Article of Association, an EGM may be convened by the Board upon requisition by any shareholder holding not less than one-tenth of the issued share capital of the Company and the securities being held carrying the right of voting at any general meetings of the Company. The shareholder shall make a written requisition to the Board or the Company Secretary at the head office of the Company at Unit 306-A201, 3/F., Harbour Centre, Tower 1, 1 Hok Cheung Street, Hunghom, Kowloon, Hong Kong, specifying the shareholding information of the shareholder, his/her contact details and the proposal regarding any specified transaction/business and its supporting documents.

The Board shall arrange to hold such general meeting within two (2) months after the receipt of such written requisition. Pursuant to the Article of Association, the Company shall serve requisite notice of the general meeting, including the time, place of meeting and particulars of resolutions to be considered at the meeting and the general nature of the business.

If within twenty-one (21) days of the receipt of such written requisition, the Board fails to proceed to convene such EGM, the requisitionist(s) himself (themselves) may do so in the same manner, and all reasonable expenses incurred by the requisitionist(s) as a result of the failure of the Board shall be reimbursed to the requisitionist(s) by the Company.

CORPORATE GOVERNANCE REPORT

Procedures for Putting Forward Proposals at a General Meeting

A shareholder shall make a written requisition to the Board or the Company Secretary at the head office of the Company at Unit 306-A201, 3/F., Harbour Centre, Tower 1, 1 Hok Cheung Street, Hunghom, Kowloon, Hong Kong, specifying the shareholding information of the shareholder, his/her contact details and the proposal he/she intends to put forward at general meeting regarding any specified transaction/business and its supporting documents.

Procedures for Directing Shareholders' Enquiries to the Board

Shareholders may at any time send their enquires and concerns to the Board in writing through the Company Secretary at the head office of the Company at Unit 306-A201, 3/F., Harbour Centre, Tower 1, 1 Hok Cheung Street, Hunghom, Kowloon, Hong Kong, or send email to enquiry@palinda.com. Shareholders may also make enquiries with the Board at the general meetings of the Company.

CONSTITUTIONAL DOCUMENTS

In order to increase the authorised share capital of the Company from 1,000,000,000 shares to 10,000,000,000 shares by creating an additional 9,000,000,000 shares in 2023, the Company had made changes to its Articles to be in line with the latest legal and regulatory requirements, including the applicable laws of the Cayman Islands and the amendments made to Appendix A1 to the GEM Listing Rules which took effect on 1 January 2022. The adoption of the amended and restated memorandum and articles of association of the Company had obtained shareholders' approval at the AGM held on 8 June 2023. An up-to-date version of the Company's Articles is also available on the Company's website and the Stock Exchange's website.

INDEPENDENT AUDITOR'S REPORT

For the year ended 31 December 2025

TO THE MEMBERS OF PALINDA GROUP HOLDINGS LIMITED

(Incorporated in the Cayman Islands with limited liability)

CCTH CPA LIMITED

OPINION

We have audited the consolidated financial statements of Palinda Group Holdings Limited (the “Company”) and its subsidiaries (hereinafter collectively referred to as the “Group”) set out on pages 42 to 111, which comprise the consolidated statement of financial position as at 31 December 2025, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including material accounting policy information and other explanatory information.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2025, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with HKFRS Accounting Standards issued by the Hong Kong Institute of Certified Public Accountants (the “HKICPA”) and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing (“HKSAs”) issued by the HKICPA. Our responsibilities under those standards are further described in the “Auditor’s Responsibilities for the Audit of the Consolidated Financial Statements” section of our report. We are independent of the Group in accordance with the HKICPA’s “Code of Ethics for Professional Accountants” (the “Code”), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

MATERIAL UNCERTAINTY RELATED TO GOING CONCERN

We draw your attention to the section headed "Going concern" of note 3 to the consolidated financial statements that the Group recorded a net loss of approximately HK\$98,030,000 and net cash outflows from operating activities of approximately HK\$5,292,000 for the year ended 31 December 2025, and as of 31 December 2025, the Group's cash at bank and on hand amounted to HK\$272,000 and the Group's borrowings and interest payables amounted to approximately HK\$116,894,000 and HK\$13,490,000 respectively, of which the Group's bank borrowing and the corresponding interest payables amounted to HK\$90,000,000 and HK\$11,986,000 respectively were overdue, although the overdue bank borrowing was secured by a floating charge on the Group's inventories of HK\$300,000,000 and a limited corporate guarantee by the Company. As at 31 December 2025, the carrying amount of the inventories, net of impairment is approximately HK\$479,390,000. Furthermore, as disclosed in the announcements of the Company dated 23 January 2026, 23 February 2026 and 27 February 2026, respectively, on 26 November 2025, the relevant bank (the "Lender") appointed receivers (the "Receivers") for the incident and took actions for the charged assets of the relevant bank borrowing, which may affect the Company 1) the ability to deploy or sell certain existing inventories freely; 2) flexibility in granting credit terms or collecting certain receivables; and 3) cash flows derived from those assets, pending directions from the Receivers and the secured Lender. The relevant bank has also commenced legal proceedings against the wholly-owned subsidiary of the Company and the Company regarding the monetary claim of the alleged debt. The Company is in the course of seeking legal advice on the proceedings, including the validity and quantum of the claim.

These financial conditions, together with the plans and measures as described in note 3 to the consolidated financial statements, indicate the existence of a material uncertainty which may cast significant doubt about the Group's ability to continue as a going concern.

In light of all the plans and measures, as detailed in the section headed "Going concern" of note 3 to the consolidated financial statements, to mitigate the liquidity pressure and to improve the Group's cash flows, the directors of the Company are of the opinion that the Group will be able to finance its future working capital and financial requirements. Our opinion is not modified in respect of this matter.

KEY AUDIT MATTER

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to the matters described in the "Material Uncertainty Related to Going Concern" section, we have determined the matters described below to be the key audit matters to be communicated in our report.

Key audit matter

How our audit addressed the key audit matters

Revenue recognition

Revenue of the Group mainly comprises sales and distribution of wine products and ancillary wines-related products, and sales and distribution of food products and drinking water products.

Revenues from sales and distribution of wine products and ancillary wines-related products, and sales and distribution of food products and drinking water products are recognised at a point in time when control of the goods has been transferred, being when the goods have been delivered to customers.

We identified revenue recognition as a key audit matter because revenue is one of the key performance indicators of the Group and therefore there is an inherent risk of manipulation of the timing of revenue recognition by management to meet specific targets or expectations.

Our audit procedures to assess the timing of revenue recognition included the following:

- Obtaining an understanding of and assessing the design and implementation of management's key internal controls in relation to revenue recognition (including controls over before and after year end order processing and shipping);
- Inspecting agreements with customers, on a sample basis, to understand the terms of the sales transactions including the terms of delivery and/or acceptance and any sales return arrangements to assess the Group's revenue recognition policies with reference to the requirements of the prevailing accounting standards specifically verifying the trigger point for control transfer;
- Comparing the revenue recorded during the financial year, on a sample basis, to the sales agreements, goods delivery notes, customers' acknowledge of receipt and delivery records, where applicable;
- Performing detailed cut off testing, on a sample basis, to assess whether specific revenue transactions recorded before and after the end of reporting date had been recognised in the appropriate financial period by inspecting the trade terms agreed with individual customers and the invoices, goods delivery notes, acknowledgement of the customers' receipt of the goods and other supporting documents;

OTHER INFORMATION

The directors of the Company are responsible for the other information. The other information comprises the information included in the annual report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF THE DIRECTORS AND THOSE CHARGED WITH GOVERNANCE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRS Accounting Standards issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Those charged governance are responsible for overseeing the Group's financial reporting process.

INDEPENDENT AUDITOR'S REPORT (Continued)

For the year ended 31 December 2025

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSA's, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the Group as a basis for forming an opinion on the group financial statements. We are responsible for the direction, supervision and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinion.

INDEPENDENT AUDITOR'S REPORT (Continued)

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2025

1. GENERAL INFORMATION

Palinda Group Holdings Limited (the “Company”) was incorporated in the Cayman Islands as an exempted company with limited liability on 10 February 2011 under the Companies Law (2010 Revision) of the Cayman Islands. The shares of the Company have been listed on GEM of The Stock Exchange of Hong Kong Limited (the “Stock Exchange”) since 8 July 2011. The address of its registered office is Cricket Square, Hutchins Drive, P.O. Box 2681, Grand Cayman, KY1-1111, Cayman Islands. The address of its principal place of business is Unit 306-A201, 3/F, Harbour Centre, Tower 1, 1 Hok Cheung Street, Hunghom, Kowloon, Hong Kong.

The Company’s principal activity is investment holding. The principal activities of its subsidiaries (together with the Company referred to as the “Group”) are sales and distribution of wine products, ancillary wines-related products, and sales and distribution of food products.

The consolidated financial statements are presented in Hong Kong dollars (“HK\$”), which is also the functional currency of the Company and all values are rounded to the nearest thousand (HK\$’000) unless otherwise indicated.

2. APPLICATION OF NEW AND AMENDMENTS TO HKFRS ACCOUNTING STANDARDS

(A) Amendments to a HKFRS Accounting Standard that are mandatorily effective for the current year

In the current year, the Group has applied the following amendments to a HKFRS Accounting Standard as issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”) for the first time, which are mandatorily effective for the Group’s annual period beginning on 1 January 2025 for the preparation of the consolidated financial statements:

Amendments to HKAS 21	Lack of Exchangeability
-----------------------	-------------------------

The application of the amendments to a HKFRS Accounting Standard in the current year has had no material effect on the Group’s financial positions and financial performance for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

For the year ended 31 December 2025

2. APPLICATION OF NEW AND AMENDMENTS TO HKFRS ACCOUNTING STANDARDS (Continued)

(B) New and amendments to HKFRS Accounting Standards in issue but not yet effective

The Group has not early applied the following new and amendments to HKFRS Accounting Standards that have been issued but are not yet effective:

HKFRS 18	Presentation and Disclosure in Financial Statements ²
HKFRS 19 and its amendments	Subsidiaries without Public Accountability: Disclosures ²
Amendments to HKFRS 9 and HKFRS 7	Amendments to the Classification and Measurement of Financial Instruments ¹
Amendments to HKFRS 9 and HKFRS 7	Contracts Referencing Nature-dependent Electricity ¹
Amendments to HKFRS 10 and HKAS 28	Sale or Contribution of Assets between an Investor and its Associate or Joint Venture ³
Amendments to HKAS 21	Translation to a Hyperinflationary Presentation Currency ²
Annual Improvements to HKFRS Accounting Standards – Volume 11	Amendments to HKFRS 1, HKFRS 7, HKFRS 9, HKFRS 10 and HKAS 7 ¹

¹ Effective for annual periods beginning on or after 1 January 2026.

² Effective for annual/reporting periods beginning on or after 1 January 2027.

³ No mandatory effective date yet determined but available for adoption.

Except for the new and amendments to HKFRS Accounting Standards mentioned below, the directors of the Company anticipate that the application of all other new and amendments to HKFRS Accounting Standards will have no material impact on the consolidated financial statements in the foreseeable future.

HKFRS 18 Presentation and Disclosure in Financial Statements

HKFRS 18 Presentation and Disclosure in Financial Statements, which sets out requirements on presentation and disclosures in financial statements, will replace HKAS 1 Presentation of Financial Statements. This new HKFRS Accounting Standard, while carrying forward many of the requirements in HKAS 1, introduces new requirements to present specified categories and defined subtotals in the statement of profit or loss; provide disclosures on management-defined performance measures in the notes to the financial statements and improve aggregation and disaggregation of information to be disclosed in the financial statements. In addition, some HKAS 1 paragraphs have been moved to HKAS 8 Accounting Policies, Changes in Accounting Estimates and Errors and HKFRS 7. Minor amendments to HKAS 7 Statement of Cash Flows and HKAS 33 Earnings per Share are also made

2. APPLICATION OF NEW AND AMENDMENTS TO HKFRS ACCOUNTING STANDARDS (Continued)

(B) New and amendments to HKFRS Accounting Standards in issue but not yet effective (Continued)

HKFRS 18 Presentation and Disclosure in Financial Statements (Continued)

HKFRS 18, and amendments to other standards, will be effective for annual periods beginning on or after 1 January 2027, with early application permitted. HKFRS 18 requires retrospective application with specific transition provisions. The application of the new standard is expected to affect the structure and presentation of the statement of profit or loss and disclosures in the future financial statements. The Groups are in the process of assessing the detailed impact of HKFRS 18 on the Groups' consolidated financial statements.

3. BASIS OF PREPARATION OF THE CONSOLIDATED FINANCIAL STATEMENTS

Going concern

For the year ended 31 December 2025, the Group recorded a net loss of approximately HK\$98,030,000 and net cash outflows from operating activities of approximately HK\$5,292,000, and as of 31 December 2025, the Group's cash at bank and on hand amounted to HK\$272,000 and the Group's borrowings and interest payables amounted to approximately HK\$116,894,000 and HK\$13,490,000 respectively, of which the Group's bank borrowing and the corresponding interest payables amounted to HK\$90,000,000 and HK\$11,986,000 respectively were overdue, although the overdue bank borrowing was secured by a floating charge on the Group's inventories of HK\$300,000,000 and a limited corporate guarantee by the Company. As at 31 December 2025, the carrying amount of inventories, net of impairment is approximately HK\$479,390,000.

Furthermore, as disclosed in the announcements of the Company dated 23 January 2026, 23 February 2026 and 27 February 2026, respectively, on 26 November 2025, the relevant bank (the "Lender") appointed receivers (the "Receivers") for the incident and took actions for the charged assets of the relevant bank borrowing, which may affect the Company 1) the ability to deploy or sell certain existing inventories freely; 2) flexibility in granting credit terms or collecting certain receivables; and 3) cash flows derived from those assets, pending directions from the Receivers and the secured Lender. The relevant bank has also commenced legal proceedings against the wholly-owned subsidiary of the Company and the Company regarding the monetary claim of the alleged debt. The Company is in the course of seeking legal advice on the proceedings, including the validity and quantum of the claim.

3. BASIS OF PREPARATION OF THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Going concern (Continued)

In view of such circumstances, the directors of the Company have given careful consideration to the future liquidity and its available sources of financing in assessing whether the Group will have sufficient funds to fulfil its financial obligations and continue as a going concern. The following plans and measures included in (i) to (iii) below (the “Plans and Measures”) are formulated to mitigate the liquidity pressure and to improve its cash flows:

- i. The Group has engaged external lawyer to deal with the incident, and has been conducting active negotiation with the Lender and the Receivers in respect of the overdue bank borrowing and corresponding interest payables for possible solutions.
- ii. The Group will continue to improve the operating efficiency by implementing measures to tighten cost controls over various operating expenses in order to enhance its profitability and to improve the cash flows from its operation in the future.
- iii. Sourcing new investors and placing agents to facilitate capital injections, fundraising activities, or other investment vehicles.

The directors of the Company have reviewed the Group’s cash flow forecast prepared by the management and are of the opinion that, taking into account the above mentioned financial condition, plans and measures, the Group will have sufficient funds to maintain its operations and to meet its financial obligations as and when they fall due within the next 12 months from the date of approval of these consolidated financial statements. Accordingly, the directors of the Company are satisfied that it is appropriate to prepare the consolidated financial statements on a going concern basis. These financial conditions, together with the Plans and Measures, indicate the existence of material uncertainties which may cast significant doubt about the Group’s ability to continue as a going concern.

Should the Group be unable to achieve the above mentioned plans and measures and operate as a going concern, adjustments would have to be made to write down the carrying amounts of the Group’s assets to their recoverable amounts, to provide for any further liabilities which might arise, and to reclassify non-current assets and non-current liabilities as current assets and current liabilities, respectively. The effects of these adjustments have not been reflected in these consolidated financial statements.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

For the year ended 31 December 2025

3. BASIS OF PREPARATION OF THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Basis of preparation

The consolidated financial statements have been prepared in accordance with HKFRS Accounting Standards as issued by the HKICPA. For the purpose of preparation of the consolidated financial statements, information is considered material if such information is reasonably expected to influence decisions made by primary users. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on GEM of the Stock Exchange of Hong Kong Limited (“Listing Rules”) and by the Companies Ordinance.

The consolidated financial statements have been prepared on the historical cost basis. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of HKFRS 2 *Share-based Payment*, leasing transactions that are accounted for in accordance with HKFRS 16 *Leases*, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in HKAS 2 *Inventories* or value in use in HKAS 36 *Impairment of Assets*.

In addition, for financial reporting purposes, fair value measurements are categorized into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

For the year ended 31 December 2025

4. MATERIAL ACCOUNTING POLICY INFORMATION

Basis of consolidation

A business is an integrated set of activities and assets which includes an input and a substantive process that together significantly contribute to the ability to create outputs. The acquired processes are considered substantive if they are critical to the ability to continue producing outputs, including an organised workforce with the necessary skills, knowledge, or experience to perform the related processes or they significantly contribute to the ability to continue producing outputs and are considered unique or scarce or cannot be replaced without significant cost, effort, or delay in the ability to continue producing outputs.

The identifiable assets acquired and liabilities assumed must meet the definitions of an asset and a liability in the *Conceptual Framework for Financial Reporting* (the “Conceptual Framework”) except for transactions and events within the scope of HKAS 37 *Provisions, Contingent Liabilities and Contingent Assets* or HK(IFRIC)-Int 21 *Levies*, in which the Group applies HKAS 37 or HK(IFRIC)-Int 21 instead of the Conceptual Framework to identify the liabilities it has assumed in a business combination. Contingent assets are not recognised.

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company and its subsidiaries. Control is achieved where the Company (i) has power over the investee; (ii) is exposed, or rights, to variable returns from its involvement with the investee; and (iii) has the ability to use its power to affect its returns.

The Group reassess whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of these elements of control listed above.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Group gains control until the date when the Group ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive expenses of the subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group’s accounting policies.

All intra-group assets, liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Non-controlling interests in subsidiaries are presented separately from the Group’s equity therein, which represent present ownership interest entitling their holders to a proportionate share of net assets of the relevant subsidiaries upon liquidation.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

For the year ended 31 December 2025

4. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

Changes in the Group's interests in existing subsidiaries

When the Group loses control of a subsidiary, the assets and liabilities of that subsidiary and non-controlling interests (if any) are derecognised. A gain or loss is recognised in profit or loss and is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the previous carrying amount of the assets (including goodwill), and liabilities of the subsidiary attributable to the owners of the Company. All amounts previously recognised in other comprehensive income in relation to that subsidiary are accounted for as if the Group had directly disposed of the related assets or liabilities of the subsidiary (i.e. reclassified to profit or loss or transferred to another category of equity as specified/permitted by applicable HKFRS Accounting Standards).

Business combinations

Acquisitions of businesses are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. Acquisition-related costs are generally recognised in profit or loss as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their fair value, except that:

- deferred tax assets or liabilities, and assets or liabilities related to employee benefit arrangements are recognised and measured in accordance with HKAS 12 *Income Taxes* and HKAS 19 *Employee Benefits* respectively;
- liabilities or equity instruments related to share-based payment arrangements of the acquiree or share-based payment arrangements of the Group entered into to replace share-based payment arrangements of the acquiree are measured in accordance with HKFRS 2 *Share-based Payment* at the acquisition date;
- assets (or disposal groups) that are classified as held for sale in accordance with HKFRS 5 *Non-current Assets Held for Sale and Discontinued Operations* are measured in accordance with that standard; and
- lease liabilities are recognised and measured at the present value of the remaining lease payments (as defined in HKFRS 16 *Leases*) as if the acquired leases were new leases at the acquisition date, except for lease for which (a) the lease term ends within 12 months of the acquisition date; or (b) the underlying asset is of low value. Right-of-use assets are recognised and measured at the same amount as the relevant lease liabilities, adjusted to reflect favourable or unfavourable terms of the lease which compared with market terms.

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed. If, after re-assessment, the net of the acquisition-date amounts of the identifiable assets acquired and liabilities assumed exceeds the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the acquirer's previously held interest in the acquiree (if any), the excess is recognised immediately in profit or loss as a bargain purchase gain.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

For the year ended 31 December 2025

4. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

Business combinations (Continued)

Non-controlling interests that are present ownership interests and entitle their holders to a proportionate share of the relevant subsidiary's net assets in the event of liquidation may be initially measured either at fair value or at the non-controlling interests' proportionate share of the recognised amounts of the acquiree's identifiable net assets. The choice of measurement basis is made on a transaction-by-transaction basis. Other types of non-controlling interests are measured at their fair value.

When the consideration transferred by the Group in a business combination includes a contingent consideration arrangement, the contingent consideration is measured at its acquisition-date fair value and included as part of the consideration transferred in a business combination. Changes in the fair value of the contingent consideration that qualify as measurement period adjustments are adjusted retrospectively, with the corresponding adjustments made against goodwill. Measurement period adjustments are adjustments that arise from additional information obtained during the 'measurement period' (which cannot exceed one year from the acquisition date) about facts and circumstances that existed at the acquisition date.

The subsequent accounting for the contingent consideration that do not qualify as measurement period adjustments depends on how the contingent consideration is classified. Contingent consideration that is classified as equity is not remeasured at subsequent reporting dates and its subsequent settlement is accounted for within equity. Contingent consideration that is classified as an asset or a liability is remeasured at fair value subsequent reporting dates with the corresponding gain or loss being recognised in profit or loss.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted during the measurement period, and additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed at the acquisition date that, if known, would have affected the amounts recognised at that date.

Revenue from contract with customers

The Group recognises revenue when (or as) a performance obligation is satisfied, i.e. when "control" of the goods or services underlying the particular performance obligation is transferred to the customer.

A performance obligation represents a good or service (or a bundle of goods or services) that is distinct or a series of distinct goods or services that are substantially the same.

Control is transferred over time and revenue is recognised over time by reference to the progress towards complete satisfaction of the relevant performance obligation if one of the following criteria is met:

- the customer simultaneously receives and consumes the benefits provided by the Group's performance as the Group performs;
- the Group's performance creates and enhances an asset that the customer controls as the Group performs; or
- the Group's performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

4. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

Revenue from contract with customers (Continued)

Otherwise, revenue is recognised at a point in time when the customer obtains control of the distinct good or service.

A contract asset represents the Group's right to consideration in exchange for goods or services that the Group has transferred to a customer that is not yet unconditional. It is assessed for impairment in accordance with HKFRS 9 *Financial Instruments*. In contrast, a receivable represents the Group's unconditional right to consideration, i.e. only the passage of time is required before payment of that consideration is due.

A contract liability represents the Group's obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer.

A contract asset and a contract liability relating to the same contract are accounted for and presented on a net basis.

Performance obligations for contracts with customers

Revenues from sales and distribution of food products, wine and ancillary wine-related products are recognised at a point in time when control of the goods has been transferred, being when the goods have been delivered to the customers. Payment of the transaction price is due immediately at the point the customer purchases the goods.

Leases

The Group assesses whether a contract is or contains a lease based on the definition under HKFRS 16 at inception of the contract. Such contract will not be reassessed unless the terms and conditions of the contract are subsequently changed.

The Group as lessee

Allocation of consideration to components of a contract

For a contract that contains a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components, including contract for acquisition of ownership interests of a property which includes both leasehold land and non-lease building components, unless such allocation cannot be made reliably.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

4. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

Leases (Continued)

The Group as lessee (Continued)

Short-term leases

The Group applies the short-term lease recognition exemption to small leased office that have a lease term of 12 months or less from the commencement date and do not contain a purchase option. Lease payments on short-term leases are recognised as expense on a straight-line basis unless another systematic basis is more representative of the time pattern in which economic benefits from the leased assets are consumed.

Right-of-use assets

The cost of right-of-use assets include:

- the amounts of the initial measurement of the lease liabilities;
- any lease payments made at or before the commencement date, less any lease incentives received;
- any initial direct costs incurred by the Group; and
- an estimate of costs to be incurred by the Group in dismantling and removing the underlying assets, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease, unless those costs are incurred to produce inventories.

Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities.

Right-of-use assets in which the Group is reasonably certain to obtain ownership of the underlying leased assets at the end of the lease term are depreciated from commencement date to the end of the useful life. Otherwise, right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term.

The Group presents right-of-use assets as a separate line item on the consolidated statement of financial position.

Refundable rental deposits

Refundable rental deposits paid are accounted under HKFRS 9 *Financial Instruments* and initially measured at fair value. Adjustments to fair value at initial recognition are considered as additional lease payments and included in the cost of right-of-use assets.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

For the year ended 31 December 2025

4. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

Leases (Continued)

The Group as lessee (Continued)

Lease liabilities

At the commencement date of a lease, the Group recognises and measures the lease liability at the present value of lease payments that are unpaid at that date. In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable.

The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable.

After the commencement date, lease liabilities are adjusted by interest accretion and lease payments.

The Group remeasures lease liabilities (and makes a corresponding adjustment to the related right-of-use assets) whenever the lease term has changed or there is a change in the assessment of exercise of a purchase option, in which case the related lease liability is remeasured by discounting the revised lease payments using a revised discount rate at the date of reassessment.

The Group presents lease liabilities as a separate line item on the consolidated statement of financial position.

Foreign currencies

In preparing the financial statements of each individual group entity, transactions in currencies other than the functional currency of that entity (foreign currencies) are recognised at the rates of exchanges prevailing on the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on the retranslation of monetary items, are recognised in profit or loss in the period in which they arise.

For the purposes of presenting the consolidated financial statements, the assets and liabilities of the Group's foreign operations are translated into the presentation currency of the Group (i.e. HK\$) using exchange rates prevailing at the end of each reporting period. Income and expenses items are translated at the average exchange rates for the year. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity under the heading of "foreign currency translation reserve" (attributed to non-controlling interests as appropriate).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

For the year ended 31 December 2025

4. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

Foreign currencies (Continued)

On the disposal of a foreign operation (that is a disposal of the Group's entire interest in a foreign operation, or a disposal involving loss of control over a subsidiary that includes a foreign operation, or a partial disposal of an interest in a joint arrangement or an associate that includes a foreign operation of which the retained interest becomes a financial assets), all of the exchange differences accumulated in equity in respect of that operation attributable to the owners of the Company are reclassified to profit or loss.

Goodwill and fair value adjustments on identifiable assets acquired arising on an acquisition of a foreign operation are treated as assets and liabilities of that foreign operation and translated at the rate of exchange prevailing at the end of each reporting period. Exchange differences arising are recognised in other comprehensive income.

Cash and Cash equivalents

Cash and cash equivalents presented on the consolidated statement of financial position include cash on hand and at banks, including term deposits, which are not restricted to use.

For the purposes of the consolidated statement of cash flows, cash and cash equivalents consist of cash and cash equivalents as defined above.

Borrowing costs

All borrowing costs are recognised in profit or loss in the period in which they are incurred.

Employee benefits

(a) Retirement benefit schemes

Payments to the MPF Scheme (the "MPF Scheme") are recognised as an expense when employees have rendered services entitling them to the contributions. The Group operates an MPF Scheme under the Hong Kong Mandatory Provident Fund Schemes Ordinance for those employees employed under the jurisdiction of the Hong Kong Employment Ordinance. The MPF Scheme is a defined contribution scheme, the assets of which are held in separate trustee-administered funds.

Under the MPF Scheme, the employer and its employees are each required to make contributions to the scheme at 5% of the employees' relevant income, with the employers' contributions subject to a cap of monthly relevant income of HK\$30,000. The Group's contributions to the scheme are expensed as incurred and vested in accordance with the scheme's vesting scales. Where employees leave the scheme prior to the full vesting of the employer's contributions, the amount of forfeited contributions is used to reduce the contributions payable by the Group.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

4. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

Employee benefits (Continued)

(b) *Defined benefit plan obligations*

The Group has the following defined benefit plans:

- Long Service Payment (“LSP”) under the Hong Kong Employment Ordinance.

The Group’s net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods and discounting that amount. For LSP obligation, the estimated amount of future benefits is determined after deducting the negative service cost arising from the accrued benefits derived from the Group’s MPF contributions that have been vested with employees, which are deemed to be contribution from the relevant employees.

(c) *Employee entitlements*

A liability is recognised for benefits accruing to employees in respect of wages and salaries, annual leave in the period the related service is rendered at the undiscounted amount of the benefits expected to be paid in exchange for that service.

Biological assets

Biological assets comprise grapes before harvest in leased farms and are classified as current assets due to the short development period prior to harvest.

Biological assets are stated at fair value less costs to sell from initial measurement up to the point of harvest, except where fair value cannot be measured reliably due to unavailability of quoted market prices and for which alternative fair value measurements are determined to be unreliable, in which case the assets are held at growing costs incurred less any accumulated impairment losses.

Once the fair value becomes reliably measurable, the biological assets are measured at fair value less costs to sell and changes in fair value are recognised in the consolidated statement of profit or loss for the period in which it arises.

Biological assets that meet the definition of bearer plants (i.e., grapevines) are within the scope of HKAS 16 *Property, Plant and Equipment*. Bearer plants are accounted for in the same way as self-constructed items of property, plant and equipment before they are in the location and condition necessary to be capable of operating in the manner intended by management. After initial recognition, bearer plants are measured at cost less any accumulated impairment before maturity. Subsequently when the bearer plants are mature, they are measured at cost, less any accumulated depreciation and impairment, with changes recognised in profit or loss.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

For the year ended 31 December 2025

4. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

Biological assets (Continued)

The grapevines are presented and accounted for as bearer plants, see “property, plant and equipment”. However, the fresh fruit bunches growing on the grapevines are accounted for as biological assets until the point of harvest. Harvested grapes are transferred to inventories at fair value less costs to sell when harvested. Fair value at the point of harvest is based on the selling prices for similar fruits prevailing in the market as at or close to the harvest dates.

Costs to sell include the incremental selling costs, including auctioneers’ fees, commission paid to brokers and dealers and estimated costs of transport to the market but exclude finance costs and income taxes.

The related costs including fertilizers and pesticide cost incurred for harvest of grapes are capitalized, until such time the grapes is harvested.

Taxation

Income tax expense represents the sum of current and deferred income for expense.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from loss before tax as reported in the consolidated statement of profit or loss and other comprehensive income because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group’s liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary difference to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries, interests in associates and joint ventures, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interest are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Taxation (Continued)

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rate (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied to the same taxable entity by the same taxation authority.

Current and deferred tax are recognised in profit or loss.

Property, plant and equipment

Property, plant and equipment are tangible assets that are held for use in the production or supply of goods or services, or for administrative purposes. Property, plant and equipment are stated in the consolidated statement of financial position at cost less subsequent accumulated depreciation and subsequent accumulated impairment losses, if any.

Freehold land are not depreciated and are measured at cost less subsequent accumulated impairment losses, if any.

Depreciation is recognised so as to write off the cost of items of property, plant and equipment over their estimated useful lives, using the straight-line method. The estimated useful lives and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

Impairment of property, plant and equipments, and right-of-use assets

At the end of the reporting period, the Group reviews the carrying amounts of its property, plant and equipment, and right-of-use assets with finite useful live to determine whether there is any indication that these assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss, if any.

The recoverable amount of property, plant and equipment, and right-of-use assets are estimated individually. When it is not possible to estimate the recoverable amount individually, the Group estimates the recoverable amount of the cash generating unit (“CGU”) to which the asset belongs.

In testing a cash-generating unit for impairment, corporate assets are allocated to the relevant cash-generating unit when a reasonable and consistent basis of allocation can be established, or otherwise they are allocated to the smallest group of cash generating units for which a reasonable and consistent allocation basis can be established. The recoverable amount is determined for the cash-generating unit or group of cash-generating units to which the corporate asset belongs, and is compared with the carrying amount of the relevant cash-generating unit or group of cash-generating units.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or a CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or a CGU) is reduced to its recoverable amount. For corporate assets or portion of corporate assets which cannot be allocated on a reasonable and consistent basis to a CGU, the Group compares the carrying amount of a group of CGUs, including the carrying amounts of the corporate assets or portion of corporate assets allocated to that group of CGUs, with the recoverable amount of the group of CGUs. In allocating the impairment loss, the impairment loss is allocated first to reduce the carrying amount of any goodwill (if applicable) and then to the other assets on a pro-rata basis based on the carrying amount of each asset in the unit or the group of CGUs. The carrying amount of an asset is not reduced below the highest of its fair value less costs of disposal (if measurable), its value in use (if determinable) and zero. The amount of the impairment loss that would otherwise have been allocated to the asset is allocated pro rata to the other assets of the unit or the group of cash-generating units. An impairment loss is recognised immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or CGU or a group of CGUs) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or a CGU or a group of CGUs) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

Inventories

Inventories are stated at the lower of cost and net realisable value. Cost of inventories are determined using the First-In-First-Out method. Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale. Costs necessary to make the sale include incremental costs directly attributable to the sale and non-incremental costs which the Group must incur to make the sale.

Financial Instruments

Financial assets and financial liabilities are recognised when a group entity becomes a party to the contractual provisions of the instrument. All regular way purchases and sales of financial assets are recognised on the trade date, that is, the date that the Group commits to purchase or sell the asset. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the market place.

Financial assets and financial liabilities are initially measured at fair value except for trade receivables arising from contracts with customers which are initially measured in accordance with HKFRS 15 *Revenue from Contracts with Customers*. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss ("FVTPL")) are added to or deducted from the fair value of the financial assets and financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities FVTPL are recognised immediately in profit or loss.

The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating interest income or interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts or payments through the expected life of the financial asset or liability, or where appropriate, a shorter period, to the net carrying amount on initial recognition.

Interest income and dividend income which are derived from the Group's ordinary course of business are presented as revenue.

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established generally by regulation or convention in the market place concerned.

All recognised financial assets are measured subsequently in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

Financial assets

Classification and subsequent measurement of financial assets

Financial assets that meet the following conditions are subsequently measured at amortised cost:

- the financial asset is held within a business model whose objective is to collect contractual cash flows; and
- the contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All other financial assets are subsequently measured at FVTPL, except that at initial recognition of a financial asset the Group may irrevocably elect to present subsequent changes in fair value of an equity investment in other comprehensive income if that equity investment is neither held for trading nor contingent consideration recognised by an acquirer in a business combination to which HKFRS 3 *Business Combinations* applies.

In addition, the Group may irrevocably designate a financial asset that are required to be measured at the amortised cost as measured at FVTPL if doing so eliminates or significantly reduces an accounting mismatch.

(i) Amortised cost and interest income

Interest income is recognised using the effective interest method for financial assets measured subsequently at amortised cost. Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset, except for financial assets that have subsequently become credit-impaired (see below). For financial assets that have subsequently become credit-impaired, interest income is recognised by applying the effective interest rate to the amortised cost of the financial asset from the next reporting period. If the credit risk on the credit impaired financial instrument improves so that the financial asset is no longer credit-impaired, interest income is recognised by applying the effective interest rate to the gross carrying amount of the financial asset from the beginning of the reporting period following the determination that the asset is no longer credit-impaired.

(ii) Financial assets at FVTPL

Financial assets that do not meet the criteria for being measured at amortised cost or fair value through other comprehensive income ("FVTOCI") or designated as FVTOCI are measured at FVTPL.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any fair value gains or losses recognised in profit or loss. The net gain or loss recognised in profit or loss includes any dividend or interest earned on the financial asset and is included in the "other gains or losses, net" line item.

Impairment on financial assets subject to impairment assessment under HKFRS 9

The Group recognises loss allowances for expected credit loss (“ECL”) on financial assets measured at amortised cost. The ECLs are measured on either of the following bases: (i) 12 months ECLs: these are the ECLs that result from possible default events within the 12 months after the reporting date; and (ii) lifetime ECLs: these are ECLs that result from all possible default events over the expected life of a financial instrument. The maximum period considered when estimating ECLs is the maximum contractual period over which the Group is exposed to credit risk.

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive. The shortfall is then discounted at an approximation to the assets’ original effective interest rate.

The Group has elected to measure loss allowances for trade receivables using HKFRS 9 *Financial Instruments* simplified approach and has calculated ECLs based on lifetime ECLs. The Group has established a provision matrix that is based on the Group’s historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

For other debt financial assets, the ECLs are based on the 12 months ECLs. However, when there has been a significant increase in credit risk since origination, the allowance will be based on the lifetime ECLs.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECL, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information analysis, based on the Group’s historical experience and informed credit assessment and including forward-looking information.

Impairment on financial assets subject to impairment assessment under HKFRS 9 (Continued)

The Group assumes that the credit risk on a financial asset has increased significantly if it is more than 30 days past due.

(i) *Definition of default*

The Group considers that default has occurred when: (i) the borrower is unlikely to pay its credit obligations to the Group in full, without recourse by the Group to actions such as realising security (if any is held); or (ii) the financial asset is more than 90 days past due.

(ii) *Credit-impaired financial assets*

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial assets have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- (a) significant financial difficulty of the issuer or the borrower;
- (b) a breach of contract, such as a default or past due event;
- (c) the lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider; or
- (d) it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation.

(iii) Write-off policy

The Group writes off a financial asset when there is information indicating that the counterparty is in severe financial difficulty and there is no realistic prospect of recovery, for example, when the counterparty has been placed under liquidation or has entered into bankruptcy proceedings, or in case of trade receivables, when the amounts are over 1 year past due, whichever occur sooner. Financial assets written-off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. A write-off constitutes a derecognition event. Any subsequent recoveries are recognised in profit or loss.

(iv) Measurement and recognition of ECL

The measurement of ECL is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information. Estimation of ECL reflects an unbiased and probability-weighted amount that is determined with the respective risks of default occurring as the weights.

Generally, the ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and the cash flows that the Group expects to receive, discounted at the effective interest rate determined at initial recognition.

For collective assessment, the Group takes into consideration the following characteristics when formulating the grouping:

- Past-due status;
- Nature, size and industry of debtors; and
- External credit ratings where available.

The grouping is regularly reviewed by the management to ensure the constituents of each group continue to share similar credit risk characteristics.

Interest income is calculated based on the gross carrying amount of the financial asset unless the financial asset is credit-impaired, in which case interest income is calculated based on amortised cost of the financial asset.

Financial Instruments (Continued)

Financial liabilities

The Group classifies its financial liabilities, depending on the purpose for which the liabilities were incurred. Financial liabilities at amortised costs are initially measured at fair value, net of directly attributable costs incurred.

Financial liabilities at amortised cost

Financial liabilities at amortised cost including trade payables, deposits and other payables, borrowings, amounts due to directors and lease liabilities are subsequently measured at amortised cost, using the effective interest method. The related interest expense is recognised in profit or loss.

Gains or losses are recognised in profit or loss when the liabilities are derecognised as well as through the amortisation process.

Equity instruments

Equity instruments issued by the Company are recorded at the proceeds received, net of direct issue costs.

Derecognition of financial assets and liabilities

The Group derecognises a financial asset only when the contractual rights to the future cash flows in relation to the financial asset expire or when the financial asset has been transferred and the transfer meets the criteria for derecognition in accordance with HKFRS 9 *Financial Instruments*.

On derecognition of financial assets at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

Financial liabilities are derecognised when, and only when, the Group's obligation specified in the relevant contract is discharged, cancelled or expires. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

Where the Group issues its own equity instruments to a creditor to settle a financial liability in whole or in part as a result of renegotiating the terms of that liability, the equity instruments issued are the consideration paid and are recognised initially and measured at their fair value on the date the financial liability or part thereof is extinguished. If the fair value of the equity instruments issued cannot be reliably measured, the equity instruments are measured to reflect the fair value of the financial liability extinguished. The difference between the carrying amount of the financial liability or part thereof extinguished and the consideration paid is recognised in profit or loss for the year.

Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as provision is at the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (where the effect of the time value is material).

Related parties

A party is considered to be related to the Group if:

- (a) A person, or a close member of that person's family, is related to the Group if that person:
 - (i) has control or joint control of the Group;
 - (ii) has significant influence over the Group; or
 - (iii) is a member of key management personnel of the Group or the Group's parent.
- (b) An entity is related to the Group if any of the following conditions applies:
 - (i) the entity and the Group are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others);
 - (ii) one entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member);
 - (iii) both entities are joint ventures of the same third party;
 - (iv) one entity is a joint venture of a third entity and the other entity is an associate of the third entity;
 - (v) the entity is a post-employment benefit plan for the benefit of the employees of the Group or an entity related to the Group;
 - (vi) the entity is controlled or jointly controlled by a person identified in (a);
 - (vii) a person identified in (a)(i) has significant influence over the entity or is a member of key management personnel of the entity (or of a parent of the entity); or
 - (viii) the entity, or any member of a group of which it is a part, provides key management personnel services to the Group or to the Group's parent.

Related parties (Continued)

A related party transaction is a transfer of resources, services or obligations between a reporting entity and a related party, regardless of whether a price is charged.

Close family members of a person are those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity.

Government grants

Government grants are not recognised until there is reasonable assurance that the Group will comply with the conditions attaching to them and that the grants will be received.

Government grants related to income that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognised in profit or loss in the period in which they become receivable. Such grants are presented under “other income”.

Segment reporting

Operating segments, and the amounts of each segment item reported in the financial statements, are identified from the financial information provided regularly to the Group’s most senior executive management for the purposes of allocating resources to, and assessing the performance of, the Group’s various lines of business and geographical locations.

Individually material operating segments are not aggregated for financial reporting purposes unless the segments have similar economic characteristics and are similar in respect of the nature of products and services, the nature of production processes, the type or class of customers, the methods used to distribute the products or provide the services, and the nature of the regulatory environment. Operating segments which are not individually material may be aggregated if they share a majority of these criteria.

5. CRITICAL ACCOUNTING JUDGEMENT AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies which are described in note 4 to the consolidated financial statements, the directors of the Company are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and underlying assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Key sources of estimation uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

Impairment on inventories

Obsolete and slow-moving inventories were identified by management based on ageing analysis and conditions and marketability of inventories. Impairment was applied to inventories based on assessment of net realisable value by management by considering the latest selling prices, current market conditions and estimated costs necessary to make the sale. Cost necessary to make the sale include incremental costs directly attributable to the sale and non-incremental costs which must incur to make the sale. Impairment will be provided if the net realisable value is estimated to be below the cost.

For the year ended 31 December 2025, an impairment loss on inventories of HK\$84,598,000 (2024: HK\$4,872,000) was recognised in profit or loss in respect of the year. As at 31 December 2025, the carrying amount of the inventories, net of impairment, is approximately HK\$479,390,000 (2024: HK\$561,570,000).

Estimated impairment of financial assets at amortised cost

The Group's financial assets at amortised cost are assessed for impairment based on the ECL model required by HKFRS 9 *Financial Instruments*. The assessment made by the Group has taken into account relevant historical information adjusted for forward looking information available to the Group at the date of assessment (to the extent that such information is reasonable and supportable without undue cost or effort). Management has exercised judgement in estimating the amount of ECL. If the actual outcome is different from management's estimate, an additional impairment loss or reversal of impairment loss may arise.

6. REVENUE AND SEGMENT INFORMATION

Information reported by the board of directors, the chief operating decision maker (the “CODM”), for the purposes of resource allocation and assessment of segment performance focuses on types of goods sold which is also consistent with the basis of organisation of the Group. No operating segments identified by the CODM have been aggregated in arriving at the reporting segments of the Group.

The Group is principally engaged in wine business for the sales and distribution of wine products and ancillary wines-related products, and food products operation for the sales and distribution of food products.

During the year ended 31 December 2024, the Group expanded the business scope within the food production operation engaging in the sales and distribution of drinking water products. Accordingly, the Group updated its internal reporting structure to include the above changes in the food products operation reportable and operating segment for the years ended 31 December 2025 and 2024.

Specifically, the Group’s reportable and operating segments under HKFRS 8 are as follows:

- (i) Wine business – the sales and distribution of wine products and ancillary wines-related products; and
- (ii) Food products operation – the sales and distribution of food products, and the sales and distribution of drinking water products.

Hong Kong profits tax:		
Current year provision	–	5
Under provision in prior years	–	3
	<u>–</u>	<u>8</u>

Pursuant to the local rules and regulation of the Cayman Islands and the British Virgin Islands (the “BVI”), the Group is not subject to any income tax in the Cayman Islands and the BVI.

Under the two-tiered profits tax rates regime of Hong Kong Profits tax, the first HK\$2 million of assessable profits of the qualifying group entity will be taxed at 8.25%, and assessable profits above HK\$2 million will be taxed at 16.5%. The assessable profits of group entities not qualifying for the two-tiered profits tax rates regime will continue to be taxed at a flat rate of 16.5%.

The directors consider the effect on the profits tax upon implementation of the two-tiered profits tax rate regime as insignificant. Accordingly, Hong Kong Profits Tax is calculated at 16.5% (2024: 16.5%) of the estimated assessable profit for both years.

The income tax expense for the year can be reconciled to the (loss)/profit before tax per the consolidated statement of profit or loss and other comprehensive income as follows:

	2025 HK\$'000	2024 HK\$'000
(Loss)/profit before tax	<u>(98,030)</u>	<u>1,308</u>

15. RIGHT-OF-USE ASSETS (Continued)

During the year ended 31 December 2025, the total cash outflow for leases, including payments of principal and interest portion of lease liabilities, short-term leases, and payments of lease payments on or before lease commencement date, was approximately HK\$945,000 (2024: HK\$2,098,000).

For the years ended 31 December 2025 and 2024, the Group leases office premises and warehouses for its operations. Lease contracts are entered into for fixed term of 1–2 years (2024: 1–2 years). Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. In determining the lease term and assessing the length of the non-cancellable period, the Group applies the definition of a contract and determines the period for which the contract is enforceable.

The Group has no extension option in a number of leases during the years ended 31 December 2025 and 2024.

16. INVENTORIES

	2025 HK\$'000	2024 HK\$'000
Finished goods (bottles of wines)	479,390	561,570

The directors of the Company have assessed the net realisable values and conditions of the Group's inventories as at 31 December 2025, which resulted in impairment loss on inventories of approximately HK\$84,598,000 (2024: HK\$4,872,000) recognised for the year ended 31 December 2025.

As at 31 December 2025, the inventories to the extent of HK\$300,000,000 (2024: HK\$300,000,000) have been pledged as security for the Group's bank loans (note 21).

Furthermore, as disclosed in the announcements of the Company dated 23 January 2026, 23 February 2026 and 27 February 2026, respectively, on 26 November 2025, the relevant bank appointed receivers for taking actions on the charged assets since the relevant bank borrowing has been overdue. The relevant bank has also commenced legal proceedings against the wholly-owned subsidiary of the Company and the Company regarding the monetary claim of the alleged debt.

17. BIOLOGICAL ASSETS

Movements of biological assets, which represent grapes growing on bearer plants, are summarised as follows:

	2025 HK\$'000	2024 HK\$'000
At 1 January	–	187
Disposal of subsidiaries (<i>note 26</i>)	–	(197)
Increase due to cultivation	–	2,786
Transfer of harvested grapes to inventories	–	(187)
Loss arising from changes in fair value less costs to sell	–	(2,589)
At 31 December	–	–

For the year ended 31 December 2024, the grapes were successfully harvested during April 2024 to May 2024 by the Group. Accordingly, the harvested grapes of HK\$187,000 included in the biological assets were transferred to inventories.

The directors measured the fair value less costs to sell of grapes at harvest based on market prices as at or close to the harvest dates.

Cultivation costs incurred are accounted for as additions to the biological assets. All grapes are harvested annually during April to May of each year. After the harvest, plantation works commence again on the farmland. The market approach is adopted to value the grapes (the “Agricultural Produce”). The fair values of the Agricultural Produce are calculated to be the product of the market price and estimated quantities of the Agricultural Produce after deducting reasonable costs related to selling.

The fair value measurement of the grapes is categorised as Level 3 fair value measurement within the three level fair value hierarchy as defined in HKFRS 13 *Fair Value Measurement*. Significant unobservable inputs are the market price for harvested grapes.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

For the year ended 31 December 2025

17. BIOLOGICAL ASSETS (Continued)

The fair value less costs to sell of the Group's biological assets measured at the end of the reporting period on a recurring basis, categorised as level 3 fair value measurement based on the inputs to the valuation techniques used. The valuation of grapes would be performed annually.

On 16 December 2024, the Group's biological assets were disposed of through disposal of subsidiaries. Details of the disposal of subsidiaries are set out in note 26.

During the year ended 31 December 2024, there were no transfers between levels in the hierarchy.

The fair value of the biological assets as at 16 December 2024, the date of disposal, has been determined by a valuation carried out by on that date by Time Appraisals Advisory Limited, an independent qualified professional valuer not connected with the Group. Time Appraisals Advisory Limited is an international professional firm providing wide range of spectrum of professional valuation and consultancy services. It has appropriate qualifications and recent experience in the valuation of similar assets.

The fair values of Agricultural Produce are calculated based on the inputs to the valuation techniques used. The following table gives information about how the fair values of these biological assets are determined (in particular, the valuation techniques and inputs used), as well as the fair value hierarchy in which the fair value measurements are categorised (Levels 1 to 3) based on the degree to which the inputs to the fair value measurements are observable.

Type	Fair value hierarchy	Valuation technique	Significant unobservable input	Range		Relationship of unobservable inputs to fair value

19. BANK BALANCES AND CASH

Cash at banks carries interest at prevailing market rates and is placed with credit worthy banks with no recent history of default.

Details of the impairment assessment of bank balances are set out in note 28.

20. TRADE PAYABLES, OTHER PAYABLES, ACCRUALS AND DEPOSITS RECEIVED

	2025 HK\$'000	2024 HK\$'000

Borrowings		
Bank borrowing, secured	90,000	90,000
Non-financial institution loans, unsecured	26,894	26,894
	116,894	116,894

	2025 HK\$'000	2024 HK\$'000
The borrowings are repayable as follows:		
– On demand or within one year	116,894	116,894
	116,894	116,894

The effective interest rate at the end of the reporting period is as follows:

	2025	2024
Borrowings	5.88% to 8.01%	6.07% to 8.00%

The agreement for the bank borrowing contained repayment on demand clause pursuant to which the bank could at the discretion, demand for repayment of the entire outstanding balances from the Group in the absence of any defaults. The whole balance of the bank borrowing is therefore classified as current liabilities.

As at 31 December 2024, the Group's bank borrowing and the corresponding interest payables amounted to HK\$90,000,000 and HK\$ HK\$2,715,000 respectively were overdue for repayment. The bank borrowing was secured by (a) a floating charge on inventories of HK\$300,000,000 and (b) a limited corporate guarantee by the Company.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

For the year ended 31 December 2025

21. BORROWINGS (Continued)

As at 31 December 2025, the Group's bank borrowing and the corresponding interest payables amounted to HK\$90,000,000 and HK\$11,986,000 respectively were overdue for repayment. The bank borrowing was secured by (a) a floating charge on inventories of HK\$300,000,000 and (b) a limited corporate guarantee by the Company. Furthermore, on 26 November 2025, the relevant bank (the "Lender") appointed receivers (the "Receivers") for the incident and took actions for the charged assets of the bank borrowings, which may affect the Company 1) the ability to deploy or sell certain existing inventories freely; 2) flexibility in granting credit terms or collecting certain receivables; and 3) cash flows derived from those assets. All pending directions from the Receivers and the secured Lender. The whole balance of the bank borrowing is therefore classified as current liabilities.

The bank borrowing is interest-bearing at prime rate per annum (2024: prime rate per annum) as at 31 December 2025.

As at 31 December 2025, the Group had aggregate banking facilities of approximately HK\$90,000,000, of which the available facilities were 100% (2024: 100%) utilised amounting to HK\$90,000,000 (2024: HK\$90,000,000).

As at 31 December 2025, the Group had aggregate loans from non-financial institutions in a total principal amount of approximately HK\$26,894,000 (2024: HK\$26,894,000). These loans from non-financial institutions are unsecured. The facility agreements of non-financial institution loans are repayable within one year, and interest-bearing with fixed interest rate ranged from 6% to 8% (2024: fixed interest rate ranged from 6% to 8%). The facility agreements of non-financial institutions were extended for one year upon expiry and therefore the whole balance of the other loans is classified as current liabilities (2024: same).

As at 31 December 2025, the Group had aggregate banking facilities of approximately HK\$90,000,000 (2024: HK\$90,000,000), of which the available facilities were 100% (2024: 100%) utilised amounting to HK\$90,000,000 (2024: HK\$90,000,000).

As at 31 December 2025, the Group had aggregate loans from non-financial institutions in a total principal amount of approximately HK\$26,894,000 (2024: HK\$26,894,000). These loans from non-financial institutions are unsecured.

As at 31 December 2025, the Group's bank borrowing and the corresponding interest payables amounted to HK\$90,000,000 and HK\$7,861,000 respectively were overdue for repayment. The bank borrowing was secured by (a) a floating charge on inventories of HK\$300,000,000 and (b) a limited corporate guarantee by the Company (2024: same).

23. SHARE CAPITAL (Continued)

Notes:

- (i) On 28 June 2024, the Company issued 236,832,000 ordinary shares of HK\$0.1 per share to several subscribers based on the subscription agreements. The net proceeds from the subscription are intended to be applied as general working capital and the repayment of borrowings.
- (ii) On 21 November 2024, the Company raised proceeds approximately HK\$47,473,000, net of expenses, by way of rights issue of 474,729,773 rights shares on the basis of one rights share for every two shares then held at the subscription price of HK\$0.1 per share.

All the new shares issued during the year rank *pari passu* with the existing shares in all respects.

24. RETIREMENT BENEFIT SCHEME

The Group operates the MPF Scheme under the Hong Kong Mandatory Provident Fund Schemes Ordinance. Under the MPF Scheme, the Group is required to make contributions to the scheme at 5% of the employees' relevant income, subject to a cap of monthly relevant income of HK\$30,000 per employee. Contributions to the MPF Scheme vest immediately.

The total expense recognised in profit or loss of approximately HK\$141,000 (2024: HK\$135,000) represents contributions payable to these schemes by the Group from continuing operations in respect of the current accounting period at rates specified in the rules of the plans. At the end of the reporting period, there are no forfeited contributions.

LSP Liabilities

Hong Kong employees that have been employed continuously for at least five years are entitled to LSP in accordance with the Hong Kong Employment Ordinance under certain circumstances. These circumstances include where an employee is dismissed for reasons other than serious misconduct or redundancy, that employee resigns at the age of 65 or above, or the employment contract is of fixed term and expires without renewal. The amount of LSP payable is determined with reference to the employee's final salary (capped at HK\$22,500) and years of services, reduced by the amount of any accrued benefits derived from the Group's contributions to MPF scheme, with an overall cap of HK\$390,000 per employee. Currently, the Group does not have any separate funding arrangement in place to meet its LSP obligation.

Starting from 1 May 2025, the Hong Kong Employment and Retirement Schemes Legislation (Offsetting Arrangement) (Amendment) Ordinance 2022 (the "2022 Amendment Ordinance") came into effect, which abolishes the statutory right of an employer to reduce its LSP payable to a Hong Kong employee by drawing on its mandatory contributions to the MPF scheme. Separately, a 25-year scheme to provide a subsidy ("Subsidy") for employers' costs in relation to the post-transition portion of the LSP has been implemented with effect on 1 May 2025.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

For the year ended 31 December 2025

24. RETIREMENT BENEFIT SCHEME (Continued)

LSP Liabilities (Continued)

Among other things, once the abolition of the offsetting mechanism takes effect, an employer can no longer use any of the accrued benefits derived from its mandatory MPF contributions (irrespective of the contributions made before, on or after the Transition Date) to reduce the LSP in respect of an employee's service from the Transition Date. However, where an employee's employment commenced before the Transition Date, the employer can continue to sue the above accrued benefits to reduce the LSP in respect of the employee's service up to that date; in addition, the LSP in respect of the service before the Transition Date will be calculated based on the employee's monthly salary immediately before the Transition Date and the years of service up to that date.

The Group has accounted provision for LSP under the offsetting mechanism and its abolition.

The Group has determined that the 2022 Amendment Ordinance primarily impacts the group's LSP liability with respect to Hong Kong employees that do not participate in the group's ORSO plans. The 2022 Amendment Ordinance has no, material impact on the group's LSP liability with respect to employees that participate in the group's ORSO plans.

The present value of unfunded obligations as 31 December:

	2025 HK\$'000	2024 HK\$'000
Provision of LSP	45	18

The unobservable assumptions for the estimation:

The weighted average duration of the defined benefit obligation is 18 years (2024: 17 years).

There were 11 employees including directors, were entitled for long service payments for the year ended 31 December 2025 (2024: 11 employees including directors).

For the year ended 31 December 2025, the estimated growth rate of salaries is 2.5% (2024: 2.5%).

The directors of the Group consider that the provision of LSP for the years ended 31 December 2025 and 2024 had no material impact on the consolidated financial statements.

27. CAPITAL RISK MANAGEMENT

The Group manages the capital to ensure that entities in the Group will be able to continue as a going concern while maximising the return to shareholders through the optimisation of the debt and equity balance. The overall strategy of the Group remained unchanged from that of the prior year.

The capital structure of the Group consists of total debts (including borrowings and lease liabilities), net of bank balances and cash, and equity attributable to owners of the Company, comprising issued share capital and reserves.

The directors of the Company review the capital structure on a semi-annual basis. As part of this review, the directors consider the cost of capital and the risks associated with each class of capital. Based on recommendations of the directors, the Group expects to maintain a stable gearing ratio through the issue of new shares as well as the undertaking of new debts. Gearing ratio is calculated as net debt (borrowings and lease liabilities less bank balances and cash) divided by the total of net debt and total equity (excluding non-controlling interests).

The gearing ratios as at 31 December 2025 and 2024 are as follows:

	2025 HK\$'000	2024 HK\$'000
Total debt	117,041	117,310

28. FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT (Continued)

(b) Financial risk management objectives and policies

The Group's major financial instruments include trade receivables, deposits and other receivables, bank balances and cash, trade payables, deposits and other payables, borrowings and lease liabilities. Details of the financial instruments are disclosed in the respective notes. The risks associated with these financial instruments include market risk (interest rate risk and other price risk), credit risk and liquidity risk. The policies on how to mitigate these risks are set out below. The management of the Group manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

Market risk

Interest rate risk

As at 31 December 2025 and 2024, the Group is exposed to fair value interest rate risk in relation to secured and unsecured borrowings and lease liabilities which carried at fixed interest rates.

As at 31 December 2025 and 2024, the Group is also exposed to cash flow interest rate risk in relation to bank balances and borrowings, and details of which are set out in notes 19 and 21 to the consolidated financial statements respectively. It is the Group's policy to keep them at floating rate of interests so as to minimise the fair value interest rate risk.

The Group's exposures to interest rates on financial liabilities are detailed in the liquidity risk management section of this note. The Group's cash flow interest rate risk is mainly concentrated on the fluctuation of Hong Kong Interbank Offered Rate ("HIBOR"), Hong Kong Prime Rate ("Prime Rate") and the best lending rate of respective banks arising from the Group's secured bank loans respectively.

The Group's exposure to cash flow interest rate risk in relation to bank balances is minimal as these balances have a short maturity period.

Sensitivity analysis

The sensitivity analysis below has been determined based on the exposure to interest rates for variable-rate secured bank borrowings at the end of the reporting period. The analysis is prepared assuming these financial instruments outstanding at the end of the reporting period were outstanding for the whole year. A 100 basis points (2024: 100 basis points) increase or decrease is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates.

An increase/decrease of 100 basis points (2024: 100 basis points) in interest rates, with all other variables were held constant, would increase/decrease the Group's loss before tax for the year by approximately HK\$900,000 (2024: decrease/increase the Group's profit before tax for the year by approximately HK\$900,000).

28. FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT (Continued)

(b) Financial risk management objectives and policies (Continued)

Liquidity risk

Despite uncertainties mentioned in note 3, the directors of the Company are of the opinion that the Group will have sufficient working capital to meet its cash flow requirements in the next twelve months from the date of approval of these consolidated financial statements. The directors are satisfied that it is appropriate to prepare these consolidated financial statements on a going concern basis.

In the management of the liquidity risk, the Group monitors and maintains a level of cash and cash equivalents deemed adequate by the management to finance the Group's operations and mitigate the effects of fluctuations in cash flows. The management monitors the utilisation of borrowings and ensures compliance with loan covenants.

The Group's policy is to regularly monitor its liquidity requirements to ensure that the Group maintains sufficient reserves of cash to meet its liquidity requirements in the short and medium term financial liabilities.

The following table details the Group's remaining contractual maturity for its non-derivative financial liabilities based on the agreed repayment terms. The table has been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. Specifically, the Group's bank loan with a repayment on demand clause is included in the earliest time band regardless of the probability of the bank choosing to exercise the rights within one year after the reporting date. The table includes both interest and principal cash flows. To the extent that interest flows are floating rate, the undiscounted amount is derived from interest rate curve at the end of the reporting period.

Credit risk and impairment assessment

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in a financial loss to the Group. The Group's credit risk is primarily attributable to trade receivables, deposits and other receivables and bank balances. The Group's exposure to credit risk arising from bank balances is limited because the counterparties are large banks that have low credit risk.

(b) Financial risk management objectives and policies (Continued)

Credit risk and impairment assessment (Continued)

Trade receivables

The Group's trade receivables before impairment amounted to a total of approximately HK\$29,437,000 (2024: HK\$11,394,000) which arose from wine business segment.

The directors have reviewed the creditability of the customers in relation to trade receivables from the food products operation segment and considered the exposure on credit risks associated with these customers are minimal as most of these customers are reputable companies with no history of default.

For wine business segment, the Group uses customers' ageing to assess the impairment for its customers because these customers consist of a large number of small customers with common risk characteristics that are representative of the customers abilities to pay all amounts due in accordance with the contractual terms. The following table provides information about the exposure to credit risk for trade receivables which are assessed based on provision matrix within lifetime ECL.

	At 31 December 2025			At 31 December 2024		
	Gross Expected Loss Rate %	Gross Carrying Amount HK\$'000	Loss Allowance HK\$'000	Gross Expected Loss Rate %	Gross Carrying Amount HK\$'000	Loss Allowance HK\$'000

		<u>29,437</u>	<u>1,227</u>		<u>11,394</u>	<u>1,124</u>

None of the Group's trade receivables was credit-impaired at the end of the reporting period.

The Group has concentration of credit risk as 15.41% (2024: 24.5%) and 58.31% (2024: 36.4%) of the trade receivables were due from the Group's largest customer and five largest customers, respectively.

Bank balances

Credit risk on bank balances is limited because the counterparties are reputable banks with high credit ratings assigned by credit agencies. The Group assessed 12 months ECL for bank balances by reference to information relating to probability of default and loss given default of the respective credit rating grades published by external credit rating agencies.

28. FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT (Continued)

Deposits and other receivables

For deposits and other receivables, the directors make periodic individual assessment on the recoverability of deposits and other receivables based on historical settlement records, past experience, and also quantitative and qualitative information that is reasonable and supportive forward-looking information. The directors believe that there is no significant increase in credit risk of these amounts since initial recognition and the Group provide impairment based on 12 months ECL. For the years ended 31 December 2025 and 2024, the Group assessed ECL for deposits and other receivables to be insignificant and thus no loss allowance was recognised.

29. RECONCILIATION OF LIABILITIES ARISING FROM FINANCING ACTIVITIES

The tables below detail changes in the Group's liabilities arising from financing activities, including both cash and non-cash changes. NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

For the year ended 31 December 2025

31. PARTICULAR OF SUBSIDIARIES OF THE COMPANY (Continued)

Note:

- (i) The subsidiary was disposed of during the year ended 31 December 2025.

All subsidiaries are companies incorporated with limited liability in their respective place of incorporation.

None of the subsidiaries had issued any debt securities subsisting at the end of both years or at any time during both years.

For the year ended 31 December 2024, the directors of the Company considered that the non-controlling interests of a non-wholly owned subsidiary of the Group were insignificant to the Group and thus are not separately presented in these consolidated financial statements. In addition, no separate financial information of this non-wholly owned subsidiary are required to present.

32. COMMITMENTS

Commitments outstanding as at 31 December 2025 and 2024 contracted for but not provided in the consolidated financial statements were as follows:

	2025 HK\$'000	2024 HK\$'000
Short-term leases commitment	135	312

33. COMPARATIVE FIGURES

To conform with current year's presentation, impairment loss of inventories of HK\$4,872,000 recognised on the consolidated statement of profit or loss and other comprehensive income for the year ended 31 December 2024 have been presented separately from costs of sales. No further information is presented as there is no significant impact to the Group's loss/profit before tax.

34. APPROVAL OF THE CONSOLIDATED FINANCIAL STATEMENTS

The consolidated financial statements were approved and authorised for issued by the board of directors on 31 March 2026.
